

MEMORANDUM

DATE: November 14, 2007

TO: TWIA Agents

FROM: Randy Wipf
Vice President, Underwriting / Agent Services

RE: Senate Bill 1263 – Personal Lines License

Senate Bill 1263 created a new personal lines license that allows the person obtaining the license to solicit personal lines, but not commercial property and casualty insurance. The bill specifically says that an agent holding a personal lines property and casualty license shall not be able to solicit commercial property and casualty insurance on behalf of an insurer.

We are writing this memo to be sure that agencies working with TWIA understand that they should not allow any person with the new personal lines license to solicit, bind and/or service commercial lines.

If anyone has a question, please call Randy Wipf, Vice President of Underwriting at TWIA.
