Note 1 - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices, Impact of NAIC/State Differences

The accompanying financial statements of Texas Windstorm Insurance Association (The "Association" or "TWIA") have been prepared on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance ("TDI"). TDI prescribed statutory accounting practices include state laws, regulations and general administrative rules applicable to all insurance companies domiciled in the State of Texas and the National Association of Insurance Commissioners' Accounting Practices and Procedures Manual ("NAIC SAP") subject to any deviations prescribed or permitted by TDI.

Reconciliations of net income and policyholders' surplus between the amounts reported in the accompanying financial statements (TX basis) and NAIC SAP follow:

B. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying footnotes. Actual results could differ from these estimates.

C. Accounting Policies

All insurance policies issued by the Association have a maximum term of one year from date of issuance. Premiums are earned over the terms of the related policies whereas the related acquisition costs such as sales commissions are expensed when incurred. Unearned premiums, net of deductions for reinsurance, are computed on a pro-rata basis to cover the unexpired portion of premiums written. Premiums receivable are primarily due from agents and policyholders and are charged off when specific balances are determined to be uncollectible. Net investment income consists primarily of interest income recognized on an accrual basis and is reduced by investment related expenses.

In addition, the company uses the following accounting policies:

- 1. Short-term investments are stated at amortized cost, which approximates market value. Reverse repurchase agreements, when used, are recorded in cash equivalents if the repurchase date is less than 90 days. Reverse repurchase agreements represent the purchase of a security with an agreement to resell.
- 2. through 9. Investment and mortgage loan related, Not applicable.
- 10. The Association does not anticipate investment income when evaluating the need for premium deficiency reserves.
- 11. Loss and loss adjustment expense reserves are based upon claim estimates for (1) losses for claims reported prior to the close of the accounting period, (2) losses incurred but unreported prior to the close of the accounting period, and (3) expenses for investigating and adjusting claims. Such liabilities are necessarily based on assumptions and estimates and while management believes the amounts are adequate, the ultimate liabilities may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- 12. The Association has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, other equipment and leasehold improvements. The predefined capitalization thresholds under this policy have not changed from those of the prior year.

13. Not applicable as the Association does not write medical insurance with prescription drug coverage.

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Association's ability to continue as a going concern.

Note 9 – Income Taxes

In 2010, Texas Windstorm Insurance Association (The "Association") applied for and received a Private Letter Ruling ("PLR") from the Internal Revenue Service. The PLR requested acknowledgement that the Association's income is derived from an essential governmental function which accrues to a state or political subdivision and is therefore excluded from gross income under Section 115(1) of the Internal Revenue Code ("IRC"). On August 17, 2010, the Internal Revenue Service ruled that the Association performs an essential government function and that income from that function is excluded from gross income under IRC Section 115(1).

The Association had been filing form 1120-PC tax returns with the Internal Revenue Service as a property and casualty insurance company. Under the Internal Revenue Code the statute of limitations to be assessed additional taxes or to file amended tax returns is 3 years from the later of the due date of the return (including extensions) or the filing date of the return. There are existing net operating loss carryforwards in

open tax years that are not anticipated to be realized. No further federal income tax impact is expected in the future.

Note 10 - Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of Relationships

Pursuant to the Association's Plan of Operation, the Board of Directors consists of nine voting members appointed by the Commissioner of Insurance. The nine-member Board includes three public members residing in the first tier coastal counties and representing certain regions of the catastrophe area, three non-coastal representatives residing more than 100 miles from the coast, and three industry representatives actively writing and renewing windstorm and hail insurance in the first tier coastal counties.

On October 10, 2002, the Texas Commissioner of Insurance enacted Article 21.49A of the Texas Insurance Code creating the Texas FAIR Plan Association ("FAIR Plan" or "the Plan"). The Commissioner instructed the Texas Windstorm Insurance Association to manage all activities of FAIR Plan.

During 2023 and 2022 the Association made expenditures on behalf of the Texas FAIR Plan Association under its management contract and was reimbursed \$15,270,086 and \$13,202,081, respectively. As of December 31, 2023, and December 31, 2022, the Association held an intercompany admitted receivable of \$1,087,719 and \$1,215,014, respectively. This arrangement is subject to a written agreement which requires that balances be settled within 30 days.

E. Management, Service Contracts, Cost Sharing Arrangements

During 2002, the Association entered into a service contract with the Texas Fair Plan Association in which the Association is to be fully reimbursed for all expenditures, professional fees, consulting services, allocated employee time, lost investment income and other costs directly associated with the services provided by the Association on behalf of the Plan.

Note 11 – Debt

A. The Texas Public Finance Authority (the "Authority" or the "Issuer") issued the Texas Public Finance Authority Class 1 Revenue Bonds (Texas Windstorm Insurance Association Program), Taxable Series 2014 (the "Bonds") on behalf of TWIA for the purpose of financing future costs in the amount of \$500,000,000. The Bonds were issued pursuant to a master resolution adopted by the Board of Directors of the Authority (the "Board") on September 24, 2014 (the "Master Resolution"), and a first supplemental resolution adopted by the Board on September 24, 2014 (the "First Supplemental Resolution", and together with the Master Resolution, the "Resolutions"). The Bonds constitute the initial series of Class 1 Public Securities of the Authority secured and payable from Class 1 TWIA Pledged Revenues irrevocably pledged under the Resolutions. TWIA has pledged the Class 1 Pledged Revenues to the Authority pursuant to a Financing and Pledge Agreement dated as of September 1, 2014 between the Authority and TWIA.

The secured Bonds were issued on September 30, 2014 for \$500,000,000 of which \$0 and \$0 was outstanding as of December 31, 2023 and December 31, 2022, respectively. On December 7, 2021, the Association Board of Directors approved an early redemption of the remaining \$177,000,000 of the Taxable Series 2014 Bonds and directed the staff to request approval from the Commissioner of Insurance to redeem the outstanding Bonds prior to their scheduled maturity dates. The redemption was completed on May 9, 2022. In conjunction with the redemption, the Association obtained a short term loan totaling \$29,118,454. The Association repaid the short term loan amount and interest in its entirety on July 21, 2022. The original Bonds bore interest from 5.25% to 8.25% with an effective interest rate of 8.03%. The Bonds were secured by TWIA's net premium and other revenue which is used to fund the Debt Service and related accounts held by the Texas Treasury Safekeeping Trust Company.

Interest expense incurred on the bonds is recorded as an investment expense and totaled \$0 and \$5,192,000 for the years ended December 31, 2023 and 2022 respectively. Interest of \$0 and \$12,493,250 was paid to bondholders for the years ended December 31, 2023 and 2022 respectively. Interest expense on the short term loan totaled \$295,797 for the year ended December 31, 2022.

The Association obtained a \$500,000,000 line of credit with two of its primary financial institutions during 2023. The facility was entered into June 1, 2023 subsequent to the Association's board of directors approval on May 23, 2023. No amounts have been drawn against the line of credit. Issuance fees for the line of credit were \$500,000 and the Association paid the lenders a 0.475% commitment fee against the unused portion of the line of credit. The commitment originally matured on March 28, 2024, however the line of credit was terminated by the Association as of December 27, 2023 without penalty.

Note 12 – Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plan

The Association sponsors a non-contributory defined benefit pension plan covering employees from date of hire that are scheduled to work at least 1,000 hours in a twelve-month period. Pension benefits are based on years of service and the employee's compensation during the five highest consecutive years' earnings from the last ten years of employment. An employee's benefits vest 5 years from date of hire. The Association makes contributions to the plan that comply with the minimum funding provisions of the Employee Retirement Income Security Act. As of December 31, 2023, the Association accrued in accordance with actuarially determined amounts with an offset to the pension cost accrual for the incremental asset amortization.

A summary of assets, obligations and assumptions of the Pension Plan are as follows at December 31, 2023 and 2022:

D. Rate of Return Assumptions

The plan seeks to be diversified while trying to maximize investment returns. The expected long-term rate-of-return-on-assets assumption is based on historical returns.

E. Defined Contribution Plan

The Association maintains a qualified defined contribution (401(k)) plan available to eligible employees after 6 months of continuous service. Matching contributions totaling \$1,067,000 and \$1,003,000 (before allocation to FAIR Plan) were made for fiscal years ending December 31, 2023, and 2022, respectively. The Association's portion was approximately \$705,000 and \$695,000 for 2023 and 2022, respectively.

Note 13 - Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

In 1993, the Texas legislature created the Catastrophe Reserve Trust Fund ("CRTF"). At the end of each year and pursuant to administrative rules, the Association must deposit the net gain from operations of the Association in excess of incurred losses, operating expenses, public security obligations, and public security administrative expenses into the CRTF and/or purchase reinsurance. In addition, pursuant to Tex. Ins. Code §2210.259, a surcharge is assessed on non-compliant structures insured by the Association, and these surcharges are deposited monthly into the CRTF.

When there is an occurrence or series of occurrences in a catastrophe area, the Association shall pay losses in excess of premium and other revenue of the Association from available reserves of the Association and available amounts in the CRTF. Administrative rules adopted by the Commissioner of insurance establish the procedures relating to the disbursement of money from the CRTF.

The Texas Comptroller of Public Accounts ("comptroller") administers the CRTF in accordance with Tex. Ins. Code, Chapter 2210. All money, including investment income, deposited in the CRTF are state funds to be held by the comptroller outside the state treasury on behalf of, and with legal title in, the TDI until disbursed as provided by the Tex. Ins. Code, Chapter 2210 and administrative rules adopted by the TDI under the Association's Plan of Operation.

The CRTF may be terminated only by law. On termination of the CRTF, all assets of the CRTF revert to the state of Texas to provide funding for the mitigation and preparedness plan established under Tex. Ins. Code, §2210.454.

For the twelve months ended December 31, 2023 and 2022, statutory fund costs were \$156,000,122 and \$74,961,815, respectively, based on the TDI's interpretation of the relevant statutes. TDI's directive requires the Association to determine its net gain from operations based on catastrophe-year incurred losses, rather than calendar year reported losses. Starting at the end of calendar year 2018, the Association is required to use the net gain from operations of the Association to make payments to the CRTF, procure reinsurance, or use alternative risk financing mechanisms. Although amounts held in the CRTF are not presented as an asset in the statutory statements of admitted assets, liabilities, surplus and other funds, once contributed to the CRTF, these funds are held in trust with the TTSTC and available for the exclusive use of the Association to pay losses and expenses of the Association as permitted by law.

In August 2017 the Texas coverage area insured by the Association was struck by Hurricane Harvey. The ultimate loss and loss adjustment expenses from Hurricane Harvey are estimated to be approximately \$1,655,000,000. Texas Insurance Code Chapter 2210 allows the Association to assess member companies Class 1 assessments up to \$500,000,000. A Class 1 member assessment was approved by the Commissioner of the Texas Department of Insurance on May 25, 2018 for \$175,000,000, a second assessment on August 29, 2018 for \$106,819,778 and a third assessment of \$90,000,000 on January 10, 2020 for a combined total of \$371,819,778. As of April 1, 2020, \$369,620,537 has been collected from the three assessments. One insurance group disputed whether they were subject to a 2018 assessment based on their interpretation of a 2017 legislative change. In 2020, the TDI Commissioner made a determination that the insurance group was not subject to the 2018 assessments. The insurance group's assessment of \$2,199,241 has been non-admitted by the Association as of December 31, 2023. The outstanding assessment will be reallocated and collected from the other member companies. Further assessments will be requested if needed as Hurricane Harvey paid loss development matures. As of December 31, 2023, the Association had a surplus of \$45,853,060.

G. Other Contingencies

The Association is subject to various investigations, claims and legal proceedings covering a wide range of matters that arise in the ordinary course of business. Management believes that any liability that may ultimately result from the resolution of these matters in excess of the amounts provided will not have a material adverse effect on the financial position of the Association. These matters are subject to various uncertainties, and some of these matters may be resolved unfavorably to the Association.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The table below reflects the fair values and admitted values of all admitted assets and liabilities that are financial instruments. The fair values are also categorized into the three-level fair value hierarchy. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows.

Level 1- Quoted Prices in Active Markets for Identical Assets and Liabilities.

Level 2 - Significant Other Observable Inputs: This category is for items measured at fair value on a recurring basis often determined by independent pricing services using observable inputs. The Association has no assets or liabilities measured at fair value in this category.

Level 3 - Significant Unobservable Inputs: The Association has no assets or liabilities measured at fair value in this category.

Cash and cash equivalents are the only financial instruments held by the Association.

D. Items for which Not Practicable to Estimate Fair Values

Not applicable

E. Instruments Measured at Net Asset Value (NAV)

The Association has elected to use NAV for all money market mutual funds in lieu of fair value as NAV is more readily available. These funds are backed by high quality, very liquid short-term instruments and the probability is remote that the funds would be sold for a value other than NAV.

Note 25 - Changes in Incurred Losses and Loss Adjustment Expenses

Current year changes in estimates of the costs of prior year losses and loss adjustment expenses (LAE) affect the current year Statement of Income. Increases in those estimates increase current year expense and are referred to as unfavorable development or prior year reserve shortages. Decreases in those estimates decrease current year expense and are referred to as favorable development or prior year reserve redundancies. Current calendar year losses and LAE reflected on the Statement of Income of \$91,372,588 had favorable prior year development due to closure of claims related to Hurricane's Ike and Harvey. Ultimate loss and loss adjustment expenses from Hurricane Harvey are estimated to be approximately \$1,655,000,000 as of December 31, 2023, down \$5 million from 2022 due to favorable development. Calendar year 2022 had unfavorable prior year development due to prior year large storm activity development offset by Hurricane Harvey development. Increases or decreases of this nature occur as the result of claim settlements and receipt and evaluation of additional information regarding unpaid claims. Recent development trends are also taken into account in evaluating the overall adequacy of reserves. Due to the inherently uncertain process involving loss and loss adjustment expense reserve estimates, the final resolution of the ultimate liability may be different from that anticipated at the reporting date. The Appointed Actuary for the Association has opined that the loss and LAE reserves as of December 31, 2023 make a reasonable provision for the Association's claims liabilities.
