About This Report

June 1, 2024

Re: Texas Windstorm Insurance Association (TWIA) Annual Report – Section 2210.107(c)

The Honorable Greg Abbott, Governor
The Honorable Dan Patrick, Lieutenant Governor
The Honorable Dade Phelan, Speaker, Texas House of Representatives
The Honorable Cassie Brown, Commissioner of Insurance
Members of the Senate Committee on Business & Commerce
Members of the House Committee on Insurance
Members, Windstorm Insurance Legislative Oversight Board

Pursuant to Texas Insurance Code Section 2210.107(c), please find enclosed TWIA's Annual Report evaluating the extent to which the Association has met the objectives described therein for the 12-month period immediately preceding the date of this report.

The primary objectives of the TWIA Board of Directors ("the Board"), as set forth in Chapter 2210 of the Texas Insurance Code, are to ensure the Board and TWIA:

1. Operate in accordance with this chapter, the Plan of Operation, and Commissioner rules;
2. Comply with sound insurance principles;
3. Meet all standards imposed under this chapter;
4. Establish a code of conduct and performance standards for Association employees and persons with which the Association contracts; and
5. Establish, and adhere to the terms of, an annual evaluation of Association management necessary to achieve the statutory purpose, Board objectives, and any performance or enterprise risk management objectives established by the Board.

The Annual Report is organized into two sections: The State of the Association, a narrative describing TWIA's activities and accomplishments from June 1, 2023, to May 31, 2024, and a Statutory Compliance section detailing required areas of compliance and operational changes during the reporting period.

The Association is in full material compliance with all current standards of performance outlined in this report.

This is the thirteenth Annual Report to be issued by TWIA since the enactment of House Bill 3 (82nd Legislature).

Should you have any questions, please feel free to contact me at (512) 505-2255.

David Durden
General Manager

State of the Association

The Texas Windstorm Insurance Association (TWIA) is more important to our Texas coastal communities than ever. TWIA has recently seen its policy count increase again after a period of decline. The Association's exposure, or the total insured value of the properties that TWIA insures, has also increased.

Begun as the Texas Catastrophe Property Insurance Association in 1971, it was the state's response to a series of storms, including Hurricane Celia. During this time, many private insurance companies chose to exit the market of the Texas coast. This made it difficult for property owners in coastal counties to maintain residential and commercial coverage.

As a residual insurer, the Association contributes to the provision of an adequate market for windstorm and hail insurance in the seacoast territory of Texas, which the Texas Legislature has determined is necessary for the economic welfare of the state. TWIA aims to achieve this legislative purpose by fulfilling our vision and mission, adhering to our values, and complying with the Texas Insurance Code 2210, the Plan of Operation, sound insurance principles, and the primary objectives of the Board of Directors.

The Association's increase in policy count indicates that private insurers are issuing fewer policies covering wind and hail in the areas that TWIA serves. As of the end of April 2024, the Association has more than a quarter of a million policies with more than \$100 billion in exposure.

The Association's higher policy count affects all areas of TWIA operations. Today, TWIA must efficiently issue more policies, handle more claims, and make more payments.

Operational Efficiency

TWIA is committed to providing our policyholders with coverage that will allow them to rebuild their lives after a catastrophic hurricane impacts the Texas coast, or to quickly recover from an isolated wind or hailstorm.

During the period covered by this report¹, more than 98 percent of policies were issued within ten days of TWIA receiving the policy application and payment. More than 90 percent of phone calls to TWIA's policy services team were answered within 20 seconds.

Because insurance agents who work with TWIA may spend significant time with clients determining their insurance needs, the Association is committed to making the process of actually submitting a policy application as easy and quick as possible. In a 2023 study of insurance agents working with TWIA conducted on the Association's behalf by Insurance Technology Services, about 60 percent of agents reported that obtaining a new or renewal policy for their clients was as easy or easier than other insurance carriers².

The Association's dedication to policyholder service includes ensuring that claims are handled professionally and paid promptly. Whether a claim is the result of a severe hurricane or a springtime thunderstorm, TWIA's claims staff work with policyholders to make sure they promptly receive the full payment they are entitled to under the terms of their policy so that they can quickly begin the process of recovering from the damage to their home or business.

On average, TWIA will have an initial inspection of damage to a covered property conducted within three days. In most cases, a TWIA policyholder will receive a payment within 10 days of filing their initial claim.

While there were no major hurricanes during this reporting period, TWIA responded to more than 7,800 claims resulting from other wind or hailstorms.

During the period covered by this report, less than one half of one percent of claims resulted in a complaint to the Texas Department of Insurance. TWIA's litigation rate, including notices of intent to sue TWIA and actual lawsuits, fell from more than 2 percent in 2022 to 1.34 percent in 2023.

Adapting to a Greater Demand for TWIA Coverage

Adapting to increased demand for TWIA coverage, Association management has made changes to how the business operates. This includes converting key contract positions to full-time staff, introducing new technology to serve policyholders better, and implementing financial strategies that optimize the funds entrusted to us.

As we enter the 2024 Atlantic hurricane season, TWIA has access to \$6.5 billion in catastrophe funding, including the highest amount of funding in the Catastrophe Reserve Trust Fund since 2017. The Association's Catastrophe Response Plan provides a robust, scalable roadmap for TWIA staff to effectively respond to major hurricanes causing losses to our policyholders in TWIA's coverage area.

A critical component of TWIA's operations is to respond to claims promptly and appropriately after a storm, whether the storm is small or catastrophic. The Association is committed to fulfilling this responsibility. In the 12 months covered by this report, the Association's staff, executive leadership, and Board of Directors have taken actions to ensure that we are ready to respond when storms damage our coastal communities.

¹ TWIA performance data from June 1, 2023, to March 31, 2024.

² New business: 9% much easier, 12% easier, 41% about the same, 16% a little more difficult, 22% a lot more difficult. Renewal business: 7% much easier, 8% easier, 43% about the same, 16% a little more difficult, 26% a lot more difficult.

Implementation of Laws Enacted by the 88th Legislature

More than a dozen bills were filed during the 88th Session of the Texas Legislature that proposed various changes to the Association or attempted to address how the state shares the risk of natural disasters. This included seven bills recommended by the TWIA Board of Directors in its Biennial Report to the Legislature.

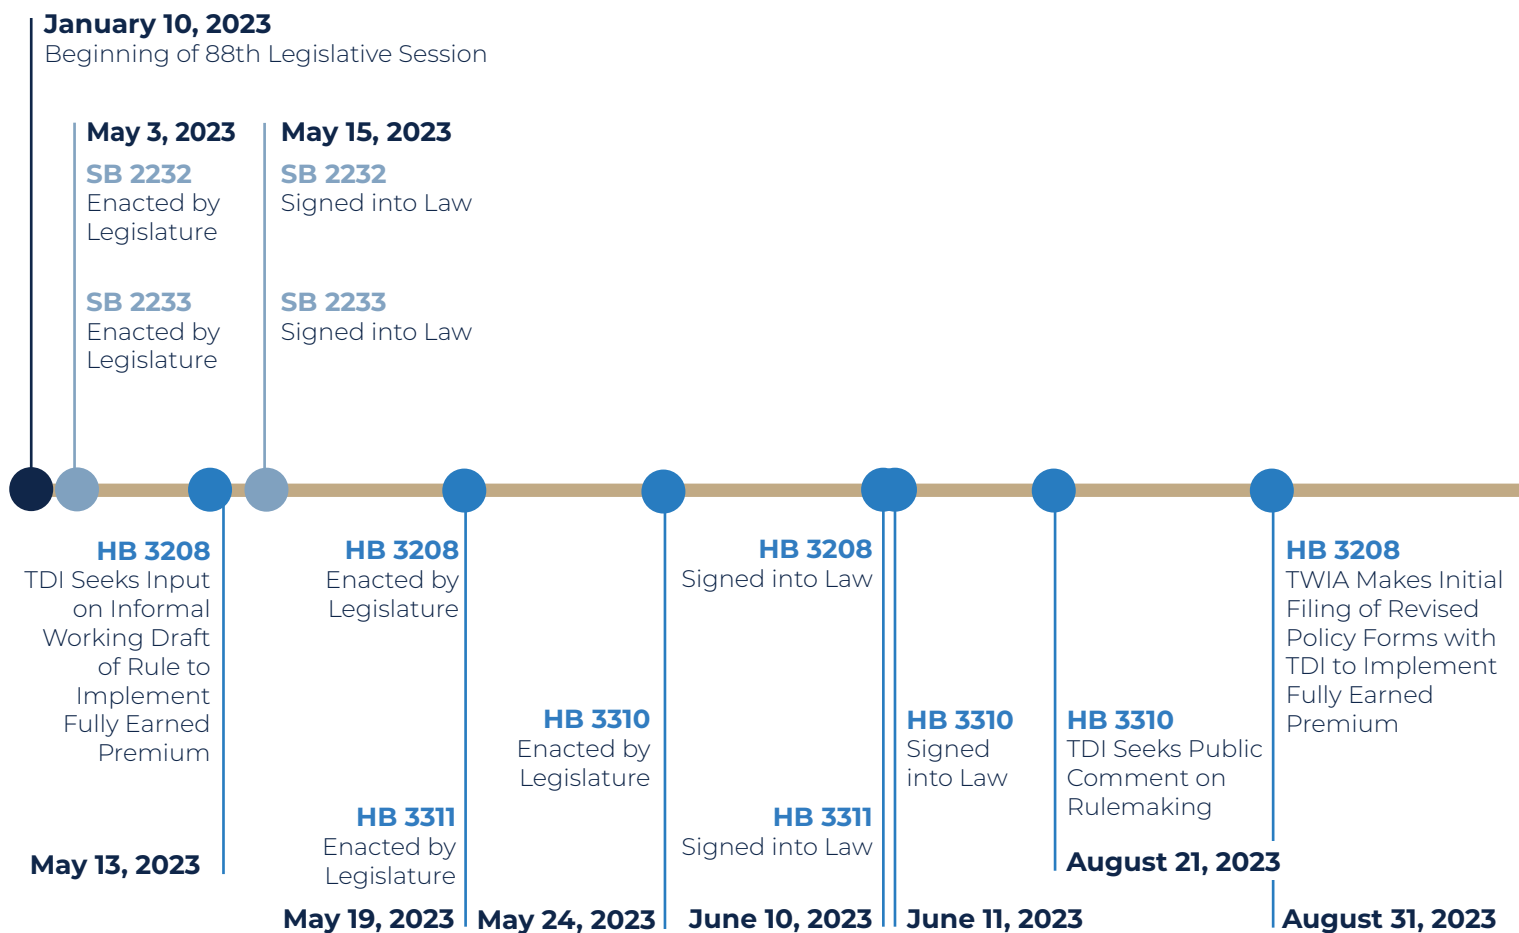

By the conclusion of the Session on May 29, 2023, the Legislature had passed a portfolio of bills that improved TWIA's ability to effectively serve policyholders. Five bills recommended in TWIA's Biennial Report became law.

TWIA is in compliance with all bills enacted by the 88th Legislature and is preparing its Biennial Report for the 89th Session.

The following new laws were implemented during the current reporting period:

House Bill 3208 by Rep. Ed Thompson relating to the refund of premiums on the cancellation of Texas Windstorm Insurance Association policies by insureds.

- TWIA has updated its underwriting and accounting systems to implement this bill and submitted revised rules and other forms to the Texas Department of Insurance (TDI). The Department is considering an amendment to the Texas Administrative Code to align it with this new law.

House Bill 3310 by Rep. J.M. Lozano relating to deadlines for the claims appraisal process of the Texas Windstorm Insurance Association.

- The Texas Department of Insurance adopted a rule to implement claims appraisal deadlines as required by this bill. TWIA has modified its processes to align with the new rule and conducted training for staff on these processes.

House Bill 3311 by Rep. Lozano relating to the process of selecting representatives of the insurance industry to serve on the board of directors of the Texas Windstorm Insurance Association.

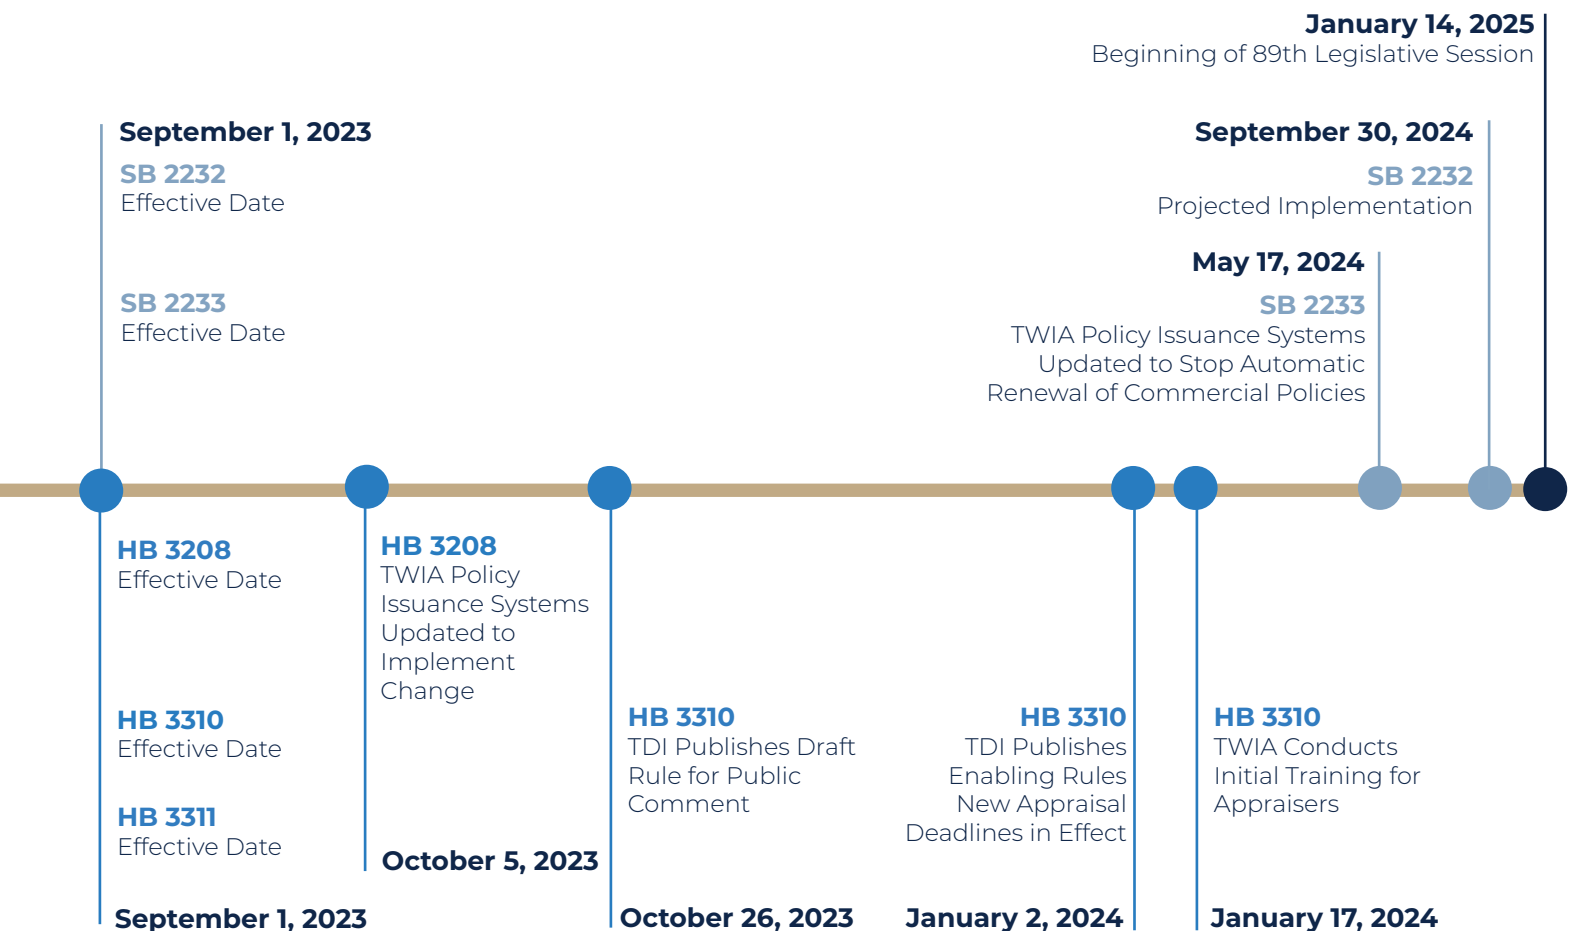

- TWIA's practices related to filling vacancies on its Board are in compliance with this law; no further action is required.

Senate Bill 2232 by Sen. Morgan LaMantia relating to requirements for insurance agents offering windstorm and hail insurance policies issued by the Texas Windstorm Insurance Association.

- TWIA is in compliance with this law and is currently developing the agent standards permitted by the legislation.

Senate Bill 2233 by Sen. LaMantia relating to automatic renewal of certain policies issued by the Texas Windstorm Insurance Association.

- TWIA has modified its policy-issuance systems to exclude commercial policies from the automatic renewal process.

Operational Improvements

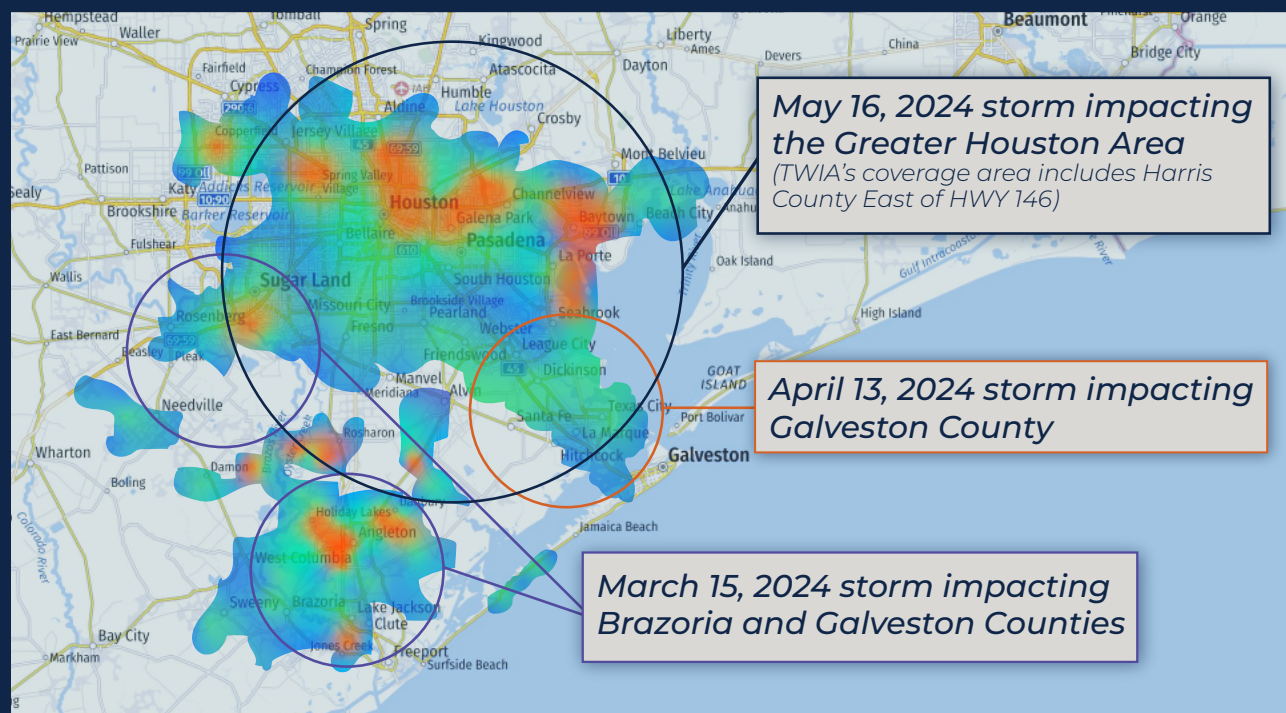

Guided by its strategic plan and new laws enacted by the Texas Legislature, TWIA has made several operational improvements during this reporting period. These changes allow the Association to do business more efficiently, offer better service to policyholders and their insurance agents, and continue to be good stewards of the funds entrusted to us.

- The Association transitioned its online payment system used by agents to a new platform after the previous system was retired by one of the financial institutions TWIA uses to conduct business. This transition took place seamlessly for agents making payments through the system.
- TWIA added chatbot functionality to its online claims reporting system to assist policyholders in making their initial claim after experiencing a loss. Policyholders may still submit their claims online using the customer portal or by phone without using the new chatbot feature.

Upper Texas Coast Experiences Spring Storms

TWIA's coverage area on the Texas coast has seen an active spring storm season in 2024, with coastal communities experiencing tornadoes and severe straight-line winds. *Space City Weather* meteorologist Matt Lanza said one of this year's storms "stands alone as the worst non-hurricane wind event in Houston's history."

While there was not a single storm event this season that generated an extreme number of TWIA claims, the cumulative effect of multiple storms resulted in nearly 2,500 claims so far this year. These storms primarily impacted the northeastern portion of TWIA's coverage area. It is too early to project the total liability from these storms.

- TWIA began transitioning certain business processes to the Cloud. These secure systems are based on services offered by Guidewire Software Inc. The Association first implemented a Guidewire platform in 2011. Guidewire's policy, claims, and billing administration systems are used by many private insurance carriers. Because TWIA is a unique, named-peril carrier, Guidewire has been customized to meet the needs of our policyholders and insurance agents.
- Pursuant to House Bill 3208 (2023 legislative session), TWIA made changes to its underwriting systems and updated policy forms and rating rules to retain the entire annual premium on a policy canceled by the policyholder unless the policy was cancelled for reasons specified in statute. Rating rules and policy forms filings are pending TDI approval.
- Implementing Senate Bill 2233 (2023 legislative session), TWIA updated its underwriting systems to no longer allow the automatic renewal of commercial policies, which can be more complex and likely to require adjustment from year to year. This change will affect commercial policy renewals beginning in the third quarter of 2024.

Financial Accomplishments

TWIA contributed \$156.0 million to the Catastrophe Reserve Trust Fund (CRTF) in 2024, bringing the balance in the CRTF to \$446 million.

TWIA investments generated \$23 million in 2023 and are expected to generate \$24.2 million in 2024, an amount equal to 60 percent of the Association's 2024 budgeted operating expenses. Taking advantage of the current environment of elevated interest rates, TWIA transferred funds to investments and accounts earning higher yields in early 2023. The new investment program maximizes the use of U.S. Treasury money market mutual funds. These changes do not impact the liquidity or security of TWIA's investments.

TWIA kept controllable expenses under budget in 2023 with operating expenses under budget by \$900,000.

TWIA continues to operate efficiently compared to the 35 other residual market insurance plans in the nation. Based on 2022 data, the most recent available:

- TWIA is the second-largest residual insurance plan in terms of premium volume.
- TWIA has the third-lowest operating expense as a percentage of written premium at 6.4% (excluding commissions and premium taxes) among beach plans, as shown in the graph below.

2022 Operating Expenses as a Percent of Premium

Residual Market Beach Plans (Wind Pools)

Source: Property Insurance Plans Service Office, Inc.

2024 Hurricane Season Funding

TWIA's 2024 reinsurance program, effective June 1, 2024 to May 31, 2025, provides \$4.05 billion of the \$6.5 billion in total aggregate funding, an amount that meets the statutory minimum funding requirement. TWIA's funding sources include the purchase of reinsurance, relying on a combination of traditional reinsurance contracts and catastrophe bonds. The reinsurance program provides coverage on an aggregate basis, meaning multiple hurricane events would be covered under the same reinsurance program.

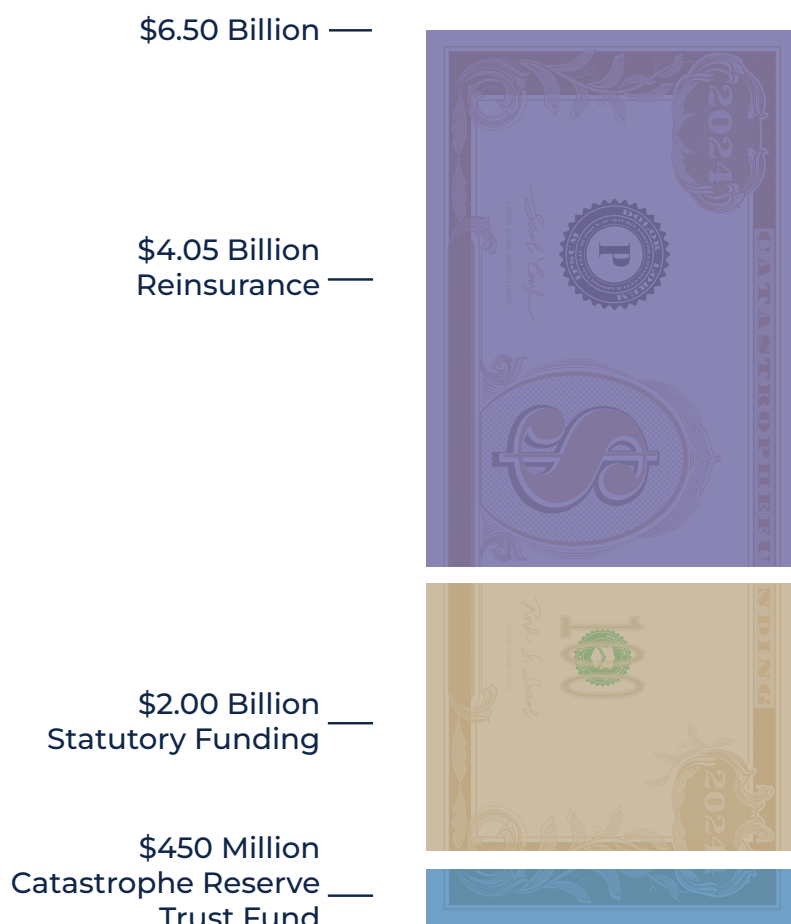

Like private-market insurers, the Association utilizes reinsurance as part of its catastrophe funding structure to ensure it has funds to pay all claims if a storm or series of storms generates losses larger than can be paid with current-year premiums and other revenue. TWIA's reinsurance program fills the gap between other funding sources and the amount of coverage for losses that TWIA is required to obtain.

In February 2024, the TWIA Board of Directors determined that the Association's probable maximum loss (PML) for a storm season with a likelihood of 1:100 is \$6.5 billion for the upcoming storm season. The 1:100 PML establishes the minimum amount needed to meet TWIA's statutory funding obligation for the upcoming storm season. In conjunction with the Association's other funding sources, the 1:100 PML also determines the amount of reinsurance the Association must purchase.

The 2024 reinsurance program includes:

- \$1.4 billion in newly issued catastrophe bonds (Series 2024-1)
- \$700 million in existing catastrophe bonds (Series 2022-1 and Series 2023-1)
- \$1.95 billion of traditional reinsurance

Total Funding for the 2024 Hurricane Season

TWIA contributed \$156.0 million to the Catastrophe Reserve Trust Fund (CRTF) in 2024, bringing the balance in the CRTF to \$446 million as of April 30, 2024.

TWIA Overview & Statutory Compliance

History And Purpose

The Texas Windstorm Insurance Association (TWIA) was established in 1971 by the Texas Legislature to provide wind and hail coverage to applicants unable to obtain insurance in the private market. The Legislature's action was a response to market constrictions along the Texas coast after several hurricanes. TWIA is governed by the Texas Insurance Code (TIC). TWIA is not a state agency and does not receive public funds.

TWIA is a residual insurer of last resort and is required by statute to function in a manner as to not be a direct competitor in the private market. TWIA's primary purpose is to provide an adequate market for windstorm and hail insurance in certain designated portions of the seacoast territory of Texas.

The seacoast territory includes the 14 first-tier and 14 second-tier coastal counties of Texas. The designated catastrophe area is the portion of the seacoast territory where the Commissioner of Insurance has found that windstorm and hail insurance is not reasonably available. It currently includes all first-tier counties and a portion of Harris County east of Highway 146.

TWIA operates as an insurance company by issuing policies, collecting premiums, and paying losses. TWIA is required by law to transfer its net gain from operations each year into the Catastrophe Reserve Trust Fund (CRTF), an account maintained by the Texas Comptroller dedicated to the payment of future TWIA catastrophe losses and other limited uses as provided by Texas Insurance Code.

Mission and Vision

TWIA's mission is to provide essential property insurance to Texans when no one else will. Accompanied by a vision to be respected and trusted by our stakeholders, TWIA's mission, vision, and values are the foundation upon which the Association is built. In carrying out this purpose, TWIA facilitates commerce in the coastal counties by enabling real estate sales and residential and commercial property mortgages and by providing a means to rebuild and recover after a catastrophic event.

TWIA embodies the following values in support of its mission:

Service & Respect

We are committed to serving as a reliable, credible, and respectful provider.

Efficiency & Stability

We are financially stable and can be counted on to fulfill our obligations.

Integrity & Accountability

We are an ethical organization that is accountable to those we serve.

Association Board of Directors

Texas Insurance Code Section 2210.102 describes the composition of the TWIA Board of Directors. Statute provides that the Board shall consist of nine members: three industry representatives from companies actively writing and renewing windstorm and hail insurance in first-tier coastal counties, three public members residing in the first-tier coastal counties, and three non-coastal representatives who live more than 100 miles from the Texas coast. One of the first-tier coastal members must also be a property and casualty agent who is licensed under this code and is not a captive agent.

The current TWIA Board of Directors is as follows:

Name	Position
Chandra Franklin Womack (Chair)	First-Tier Coastal Representative
Georgia Neblett (Vice-Chair)	First-Tier Coastal Representative
Karen Guard (Secretary/Treasurer)	Insurance Industry Representative
Tim Garrett	Non-Seacoast Territory Representative
Michael Gerik	Insurance Industry Representative
Peggy Gonzales	First-Tier Coastal Representative
Esther Grossman	Insurance Industry Representative
Mary Keller	Non-Seacoast Territory Representative
Tony Schrader	Non-Seacoast Territory Representative

Additional conflict of interest requirements apply to Board members representing the general public (i.e. the non-industry board members), including prohibiting a person from being appointed to the Board in a position reserved for an inland or coastal representative if the person or the person's spouse manages, is employed by, or owns more than 10% interest in a company that:

- Operates in the property and casualty insurance industry in Texas;
- Receives money from the Association other than claim payments; or
- Receives money from Association policyholders with respect to the policyholders' claims.

Texas Insurance Code Section 2210.109 requires all Board members to make public disclosures of potential conflicts in open meetings or on the agenda for closed session items.

Board members must also undergo training and receive and acknowledge a training manual developed by the Association's General Manager. All appointed Board members have completed the statutory training requirements.

Port Bolivar, TX

Policy Issuance and Eligibility Requirements

Under Texas Insurance Code Section 2210.203, if the Association determines that the property for which an application for initial insurance coverage is made is insurable property, the Association, upon receipt of full or partial payment of the premium, shall direct the issuance of an insurance policy as provided by the Association's Plan of Operation. A policy is issued for a one-year term and may be renewed annually if the property continues to be insurable property.

To be eligible for a TWIA policy, applicants and properties must meet certain criteria defined by the Texas Legislature. Texas Insurance Code Section 2210.004 defines insurable property for the purposes of eligibility for TWIA insurance:

- Applicants must have been denied coverage by at least one insurer in the private market.
 - Properties must be located in the designated catastrophe area.
 - Properties must be certified as having been built to applicable building codes, with limited exceptions.
 - Properties located in specified flood zones (V zones) that were constructed, altered, remodeled, or enlarged after September 1, 2009, and that can obtain flood insurance through the National Flood Insurance Program (NFIP) must provide proof of flood insurance coverage.
 - Properties must be in an insurable condition as specified by the Association in the Plan of Operation.
-

TWIA has implemented several initiatives to ensure properties insured by the Association meet these requirements, including a physical and virtual inspection strategy, a quality assurance and training program, agent audit processes, and a more modern policy administration system. At the core of these initiatives is a focus on operational efficiency in TWIA's underwriting methods, allowing the Association to process policy applications more quickly and with fewer staff resources.

Below are charts illustrating the number of TWIA policies currently in force, the direct liability associated with those policies, and premiums written through April 30, 2024, as compared to the previous year:

Policies in Force

Policy Type	As of 4/30/23	As of 4/30/24	Change from Prior Year
Manufactured Home	1,052	1,285	22.15%
Residential	222,130	245,344	10.45%
Commercial	8,015	8,464	5.6%
Totals	231,197	255,093	10.34%

Direct Liability

Policy Type	As of 4/30/23	As of 4/30/24	Change from Prior Year
Manufactured Home	\$70,125,020	\$91,810,000	30.92%
Residential	\$71,803,734,623	\$87,945,969,100	22.48%
Commercial	\$9,787,512,520	\$13,024,104,600	33.07%
Totals	\$81,661,372,163	\$101,061,883,700	23.76%

Written Premiums

Policy Type	As of 4/30/23	As of 4/30/24	Change from Prior Year
Manufactured Home	\$584,112	\$837,025	43.30%
Residential	\$134,341,995	\$163,704,410	21.86%
Commercial	\$31,317,756	\$35,667,064	13.89%
Totals	\$166,243,823	\$200,208,499	20.43%

Building Codes and Certificates of Compliance

Texas Insurance Code Chapter 2210, Subchapter F (Sections 2210.251-2210.259), outlines the building code and inspection requirements for TWIA eligibility and provides for limited exceptions. In accordance with these sections, TWIA requires a Certificate of Compliance (WPI-8, WPI-8-C, or WPI-8-E) for all structures constructed, altered, remodeled, enlarged, repaired, or to which additions have been made on or after January 1, 1988. TDI administers the Windstorm Inspection Program and issues all Certificates of Compliance for structures.

Texas law identifies some exceptions for structures lacking Certificates of Compliance. Residential properties with construction from 1988 to June 19, 2009, that are not certified may still be eligible and are subject to a 15% premium surcharge. These surcharges are deposited directly into the CRTF. Residential properties insured on/after June 19, 2009, by an insurer in the private market that are non-renewed or cancelled by the insurer and missing a required WPI-8 at the time of policy non-renewal/cancellation may be eligible for TWIA coverage.

As of April 30, 2024, there are 21,150 policies in force on the WPI-8 waiver surcharge program. This graph shows the total surcharge amounts deposited into the CRTF each year.

WPI-8 Waiver Surcharges

Surcharge Amounts Deposited and Policies in-Force

Annual and Statutory Statement

Texas Insurance Code Section 2210.054 requires TWIA to file a financial statement annually with TDI and the State Auditor's Office summarizing the Association's transactions, conditions, operations, and affairs during the preceding year. The 2023 Annual Statement¹ was filed on March 1, 2024.

TWIA's financial condition and results of operations for 2023 are summarized below:

Net Income & Operating Expenses

Description	Dec-2023 YTD Actual	Dec-2023 YTD Budget	Dec-2022 YTD Actual	Actual vs. Budget		Actual Current Yr. vs. Prior Yr.	
				Variance \$	Variance %	Variance \$	Variance %
Net Income	\$ 161.0 M	\$ 100.1 M	\$ 136.7 M	\$ 60.9 M	60.8%	\$ 24.3 M	17.7%
Operating Expenses	\$ 34.3 M	\$ 35.2 M	\$ 33.5 M	(\$ 0.9 M)	(2.6%)	\$ 0.7 M	2.2%

Net operating expenses shown above and on the statutory income statement exclude claims related expenses which are recorded in losses and loss adjustment expense. Notable expense items under budget include Personnel Expenses (\$1.8 million) and Software Purchases and Licensing (\$540,000). Expenses over budget include Professional & Consulting Services of \$1.5 million, primarily in information technology.

Direct Written Premiums & Earned Premiums

Description	Dec-2023 YTD Actual	Dec-2023 YTD Budget	Dec-2022 YTD Actual	Actual vs. Budget		Actual Current Yr. vs. Prior Yr.	
				Variance \$	Variance %	Variance \$	Variance %
Direct Written Premiums	\$ 653.0 M	\$ 560.2 M	\$ 518.3 M	\$ 92.9 M	16.6%	\$ 134.7 M	26.0%
Direct Earned Premiums	\$ 589.4 M	\$ 542.3 M	\$ 443.5 M	\$ 47.1 M	8.7%	\$ 145.9 M	32.9%
Policies In-Force	247,531	232,209	222,480	15,322	6.6%	25,051	11.3%

Reinsurance Costs

The 2023-2024 reinsurance program was inceptioned on June 1, 2023. Coverage for the 2023 hurricane season consists of \$1.2 billion of collateralized catastrophe bonds and \$1.043 billion of traditional reinsurance. Gross ceded premiums associated with the \$2.243 billion in coverage totaled \$218.0 million compared to a budgeted estimate of \$225.5 million. This total reflects an overall rate-on-line (ROL) of 9.1% compared to the 6.5% ROL for the 2022-2023 program. The net cost of the reinsurance program after ceding commission was \$208.0 million. Reinsurance premiums ceded are recognized over the hurricane season beginning June 1 and ending on November 30 of each year.

¹ <https://www.twia.org/wp-content/uploads/2023-TWIA-Annual-Statement.pdf>

Direct Losses & LAE

Description	Dec-2023 YTD Actual	Dec-2023 YTD Budget	Dec-2022 YTD Actual	Actual vs. Budget		Actual Current Yr. vs. Prior Yr.	
				Variance \$	Variance %	Variance \$	Variance %
Direct Losses & LAE	\$ 91.4 M	\$ 92.2 M	\$ 51.2 M	(\$ 0.8 M)	(0.9%)	\$ 40.2 M	78.4%
Loss & LAE Ratio	15.5%	17.0%	11.5%		(1.5%)		4.0%

The ultimate loss and loss adjustment expense estimate for Hurricane Harvey was reduced by \$5 million in December 2023 to \$1.655 billion.

Surplus

Description	Dec-2023 YTD Actual	Dec-2023 YTD Budget	Dec-2022 YTD Actual	Actual vs. Budget		Actual Current Yr. vs. Prior Yr.	
				Variance \$	Variance %	Variance \$	Variance %
Surplus	\$ 45.9 M	\$ 30.8 M	\$ 38.6 M	\$ 15.0 M	48.8%	\$ 7.2 M	18.7%

Ending surplus increased from the prior year-end amount by \$7.2 million. Surplus increased due to year-to-date net income of \$161.0 million and reduction in the liability for unrecognized pension expense of \$1.4 million and a slight decrease in non-admitted assets. These amounts were partially offset by the \$156.0 million that has been accrued for the estimated 2023 contribution to the catastrophe reserve trust fund.

The statutory balance sheet provided reflects the financial position of TWIA as of April 30, 2024, compared to December 31, 2023. The statutory income statement provides a comparison between the actual and budgeted revenues and expenses for the four months ended April 30, 2024, and April 30, 2023, respectively. Net income for the four months ended April 30, 2024, was \$99.7 million which was \$51.5 million below the budgeted income of \$151.2 million.

Statutory Balance Sheet

Rates

TWIA rates affect the amount of premium charged to each TWIA policyholder. Texas Insurance Code Section 2210.352 requires TWIA to make an annual rate filing with TDI by August 15 of each year. The amount of the rate filing is set by the TWIA Board of Directors, who consider the Association's current rate needs along with feedback from key stakeholders. The Board must vote by a two-thirds majority to submit a rate increase for an annual or non-annual filing. All rate increase filings are subject to review and approval by the Commissioner of Insurance.

TWIA calculates its premiums based on several different rating factors, including amount of insurance requested, construction type, deductible amount, and optional added coverages. A policy's premium may change annually based on changes in coverage, such as the amount of insurance provided by the policy. Premium credits may be available for items certified as being built to recent windstorm building codes. TWIA does not use credit scoring or territorial rating.

Residential Rate Components and TWIA Income

Based on 2023 TWIA Rate Adequacy Analysis

TWIA considers several factors when calculating rate adequacy, as outlined in statute. TWIA's annual Rate Adequacy Analysis compares projected losses and operating expenses to projected premiums remaining after commissions and taxes to determine the Association's rate need. Hurricane and Non-Hurricane Loss provisions include loss adjustment expenses.

Texas Insurance Code Section 2210.355 requires that TWIA rates be reasonable, adequate, not unfairly discriminatory, and non-confiscatory as to any class of insurer. TWIA's actuarial staff conducts an annual rate adequacy analysis using standard actuarial industry methodologies to compare TWIA's current rate level to the expected costs for providing property insurance coverage for the upcoming year. The actual costs of providing property coverage for a specific year may differ substantially from the indicated required rate level since the windstorm and hail events covered by TWIA are inherently unpredictable from year to year. The analysis includes factors for actual historical and modeled windstorm losses, operational expenses, reinsurance costs, anticipated reinsurance recoveries, projected debt service, and a reasonable provision for contributions to the CRTF. TWIA's 2023 actuarial analysis found the Association's rates to be inadequate by 20% for residential policies and 22% for commercial policies.

Texas Insurance Code Section 2210.3511 requires that TWIA post its rate adequacy analysis on its website at least 14 days before the Board of Directors votes on the submission of a proposed rate filing to TDI and requires public comments on the rate adequacy analysis to be heard at a public meeting of the Board before they vote on the submission of a proposed rate filing to TDI. TWIA is in compliance with these requirements.

Recent Rate Actions

At its August 2023 meeting, the TWIA Board voted to direct staff to file a 0% rate change with TDI for residential and commercial policies issued or renewed on or after January 1, 2024. The rate filing was submitted to TDI on August 14, 2023.

Maximum Limits of Liability

Under Texas Insurance Code Chapter 2210, Subchapter K (Sections 2210.501-2210.504), TWIA is required to propose inflation adjustments to the maximum liability limits under a windstorm and hail policy with TDI by September 30 each year. TWIA files annual updates to the maximum liability limits based on changes in construction cost indices.

The TWIA Board of Directors voted to approve staff's recommendation to submit to TDI no changes to the maximum liability limits at its August 2023 meeting. TWIA submitted the annual filing on August 14, 2023. TWIA's current maximum liability limits are as follows:

General Manager and Annual Evaluation of Association Management

The fifth objective outlined in Texas Insurance Code Section 2210.107(a) is to establish and adhere to the terms of an annual evaluation of Association management necessary to achieve the statutory purpose, Board objectives, and any performance or enterprise risk management objectives established by the Board.

Beginning in 2012, TWIA's annual budget has been based upon the consolidation of department-level budgets for which department management and their staff are held accountable. The Accounting department prepares budget conformity reports at the department level to monitor performance compared with the budget. Under the current management team, TWIA has consistently performed at or below budget for controllable expenses in nearly every area since 2012. The 2024 budget was reviewed and approved by the Board of Directors at its December 2023 meeting.

TWIA staff are evaluated against a set of performance standards established for each position, including objective performance measures based on their department's and individual roles. Each department head is accountable for their department's budget and evaluated against the extent to which objective performance measures established for the department are met. Employees within each department are evaluated using objective performance measures. Performance evaluation documents reflect these areas of accountability.

The Association has established risk management objectives in the form of business continuity planning, catastrophe response planning, reinsurance, and other funding mechanisms to effectively manage the financial and human resources of the organization in meeting its established purpose.

Catastrophe (CAT) Incident Response

Texas Insurance Code Section 2210.455 requires the Association, not later than June 1 of each year, to submit to the Commissioner, the Legislative Oversight Board, the Governor, the Lieutenant Governor, and the Speaker of the House of Representatives a catastrophe plan covering the period beginning on the date the plan is submitted and ending on the following May 31. The 2024 Catastrophe (CAT) Incident Response Plan looks to incorporate lessons learned from the 2023 hurricane season.

Built into the Association's annual CAT Plan review process is a Corrective Action Program (CAP) designed to identify gaps and deficiencies in the previous year's CAT Plan. The Association uses the information to create After-Action Reports (AARs), which include recommendations to improve the CAT Plan and methods for replicating past successes.

The 2024 CAT Plan includes the following updates:

- Implementation of a new response structure to improve internal coordination and to better identify the roles and responsibilities of each department.
 - Improvements to the Association's deployment plan to address possible deployment sites, logistical needs, and technical environments supporting deployments.
 - Enhancements to the Association's coordination and communication with emergency and disaster response organizations and regulatory entities, including city and county Offices of Emergency Management, the Texas Department of Emergency Management (TDEM), the Small Business Administration (SBA), FEMA Individual Assistance, FEMA Region VI (Texas, Oklahoma, New Mexico, Louisiana, Arkansas), the National Flood Insurance Program, and TDI.
 - Increased Resource Scalability numbers associated with the 1-in-100 year, 1-in-50 year, 1-in-25 year, and 1-in-10 year modeled storms and addressed each department's scaling needs to better understand the number of resources needed after a storm.
 - Updated objectives related to the program (Texas Insurance Code, Section 2210.578) used for the settlement of TWIA "slab claims" to include planned annual stakeholder communications and references to the software used and the implementation process for the program.
-

Replicating our successes is another key component of the 2024 CAT Plan:

- TWIA is constantly improving the Association's claims resource capabilities and our ability to respond promptly, efficiently, and effectively to an event.
- Claims leadership continues to improve the initial scaling process for future catastrophic events, support updates to external communications about the claims process, and leverage technology to enhance the policyholder experience.
- The Association currently has contracts with more than a dozen adjusting firms to provide over 3,000 approved and trained independent adjusters.
 - A pre-determined fee schedule is included in the contracts between the Association and each independent adjusting firm.
 - Firms are contractually obligated to have adjusters trained and certified before hurricane season.
 - The effectiveness of these measures has been borne out in recent storms, in which TWIA has successfully secured enough independent adjusters to meet its needs.
- The Association's claims administration system, Claims Center, has improved the claim handling process and provides policyholders, agents, and TWIA with better ways to communicate and share more accurate information about a claim.
 - The claim portals for policyholders and agents provide a valuable tool for remotely interacting with TWIA personnel throughout the life of a claim.
- TWIA supports field operations through relationships with local officials and Offices of Emergency Management at the local, county, state, and federal levels.
 - We continue to meet with emergency management, local officials, and response organizations to socialize plans and to find ways to coordinate with them before, during, and after an event.

Corpus Christi, TX

CAT Plan Testing and Activation

TWIA has activated the CAT Plan 25 times since January 1, 2012, for localized wind and hail events and has updated the CAT Plan based on information gathered from these events. Most recently, the CAT Plan was activated on March 18, 2024, in response to the severe hail and wind events that impacted the upper Texas coast.

To prepare for CAT Plan activation, the Association has conducted annual testing, training, and exercises for the past five years, focusing on all CAT Plan and response elements. The Association first tested the CAT Plan in an enterprise-wide simulation in June 2014. Testing, training, and exercises have since been developed for staff deployments, claims processes and procedures, cross-departmental communication, and technology to improve overall readiness throughout the organization. To support this and to ensure continuous improvement, the Association has developed a three-year strategic testing, training, and exercise plan covering 2021 through the end of 2024.

Historical TWIA claim volume for the past 15 years and 2024 year to date is reported in the charts below.

Claims Per Year and Claims Per Hurricane

The Association experienced significant spring storm activity in March, April, and May of 2024, resulting in nearly 2,500 claims. TWIA received 8,867 claims total in 2023. There were no hurricane events that impacted the Texas coast in 2023.

Claims Settlement and Dispute Resolution

Texas Insurance Code Chapter 2210 outlines the judicial remedies available to TWIA policyholders, including appraisal for disputes arising over the amount of a loss and Alternative Dispute Resolution (ADR) and litigation for disputes regarding coverage of damages. Texas Insurance Code Section 2210.014 made Insurance Code Chapters 541 (Unfair Settlement Practices) and 542 (Prompt Payment of Claims Act) inapplicable to TWIA claims. Texas Insurance Code Section 2210.572(c) made the Deceptive Trade Practices Act inapplicable to TWIA.

The provisions of Texas Insurance Code Chapter 2210, Subchapter L-1 outline the process for claims decisions, payments, and disputes, including default appraisal deadlines established by House Bill 3310 passed in the 2023 legislative session.

- All disputes regarding the amounts paid for claims the Association accepts must be submitted to an appraisal process.
- Texas Insurance Code Section 2210.575 allows policyholders up to two years to provide notification of their intent to sue the Association if TWIA fully or partially denies coverage for a claim.
 - TWIA has the option to require the policyholder to submit the dispute to ADR with mediation as the primary form of dispute resolution used by the Association. Both parties equally share all costs and expenses of appraisal and mediation.
- TWIA is also authorized to offer a supplemental payment process, which allows policyholders to provide TWIA with new information about their claim so the Association may re-evaluate the claim decision for the purposes of issuing additional payment.
 - Policyholders do not have to engage in the appraisal process or file a lawsuit to request a supplemental payment.

The following tables outline data regarding disputes related to 2023 claims. Dispute frequency tracks the total number of claims filed with the Association and the number and percentage of claims in which the policyholder is disputing the claims disposition for any reason.

TWIA - 2023 All Disputed Claims

Dispute Frequency			Type of Dispute		
Total Claims	Disputed Claims	% of Disputed Claims	Appraisals	Notice of Intent	Suits
8,867	169	1.91%	80	100	2

TWIA - 2023 Disputed Claims with Appraisal Invoked

Total Appraisals: 80

Open/Pending	Appraisal Complete	Appraisal Process Stopped	
Active	Awarded	Withdrawn	Ineligible
51	13	3	13

TWIA - 2023 Claims with Notice of Intent to Sue or Lawsuit Served

Total Noi / Suit	Notices of Intent Received	Notices of Intent Resolved	Lawsuits Received	Lawsuits Resolved
102	100	12	2	0

Catastrophe Funding

Texas Insurance Code Chapter 2210 outlines the funding structure used to pay TWIA's insured losses and operating expenses. TWIA's statutory funding sources provide a combination of public securities and member company assessments and require total funding in an amount not less than the probable maximum loss for the Association for a catastrophe year with a probability of one in 100.

Texas Insurance Code Chapter 2210, Subchapter B-1 (Sections 2210.071-2210.075) describes the different sources of funding available to pay TWIA losses.

Those sources and the order in which they are used are:

- TWIA premiums and other revenue
- Available reserves and amounts in the Catastrophe Reserve Trust Fund (CRTF)
- Up to \$500 million in Class 1 public securities
- Up to \$500 million in Class 1 assessments on TWIA member companies
- Up to \$250 million in Class 2 public securities
- Up to \$250 million in Class 2 assessments on TWIA member companies
- Up to \$250 million in Class 3 public securities
- Up to \$250 million in Class 3 assessments on TWIA member companies
- Reinsurance or alternative risk financing in an amount sufficient to achieve total funding not less than a 100-year hurricane season

Texas Insurance Code Chapter Section 2210.071 prohibits the Association from paying excess losses from a catastrophe year with premium and other revenue earned in subsequent years.

Texas Insurance Code Section 2210.453 (f) prohibits TWIA from purchasing reinsurance from an insurer or broker that provides the catastrophe modeling TWIA uses to determine the probable maximum loss or make rate decisions. Statute also requires that the cost of any reinsurance purchased above the minimum required funding level (one in 100 probable maximum loss) be reimbursed by an assessment on member insurers of the Association.

All classes of public securities are backed by TWIA revenues and are not obligations of the State of Texas.

Class 1, 2, and 3 public securities are repaid by TWIA premiums and other revenues and, if premiums and all other revenues are not sufficient, surcharges on TWIA policies.

Class 2 and 3 public securities, after a finding by the Commissioner of Insurance, may also be repaid by surcharges on coastal property and auto insurance policies that insure property and automobiles located in the catastrophe area.

2024 Hurricane Season Funding

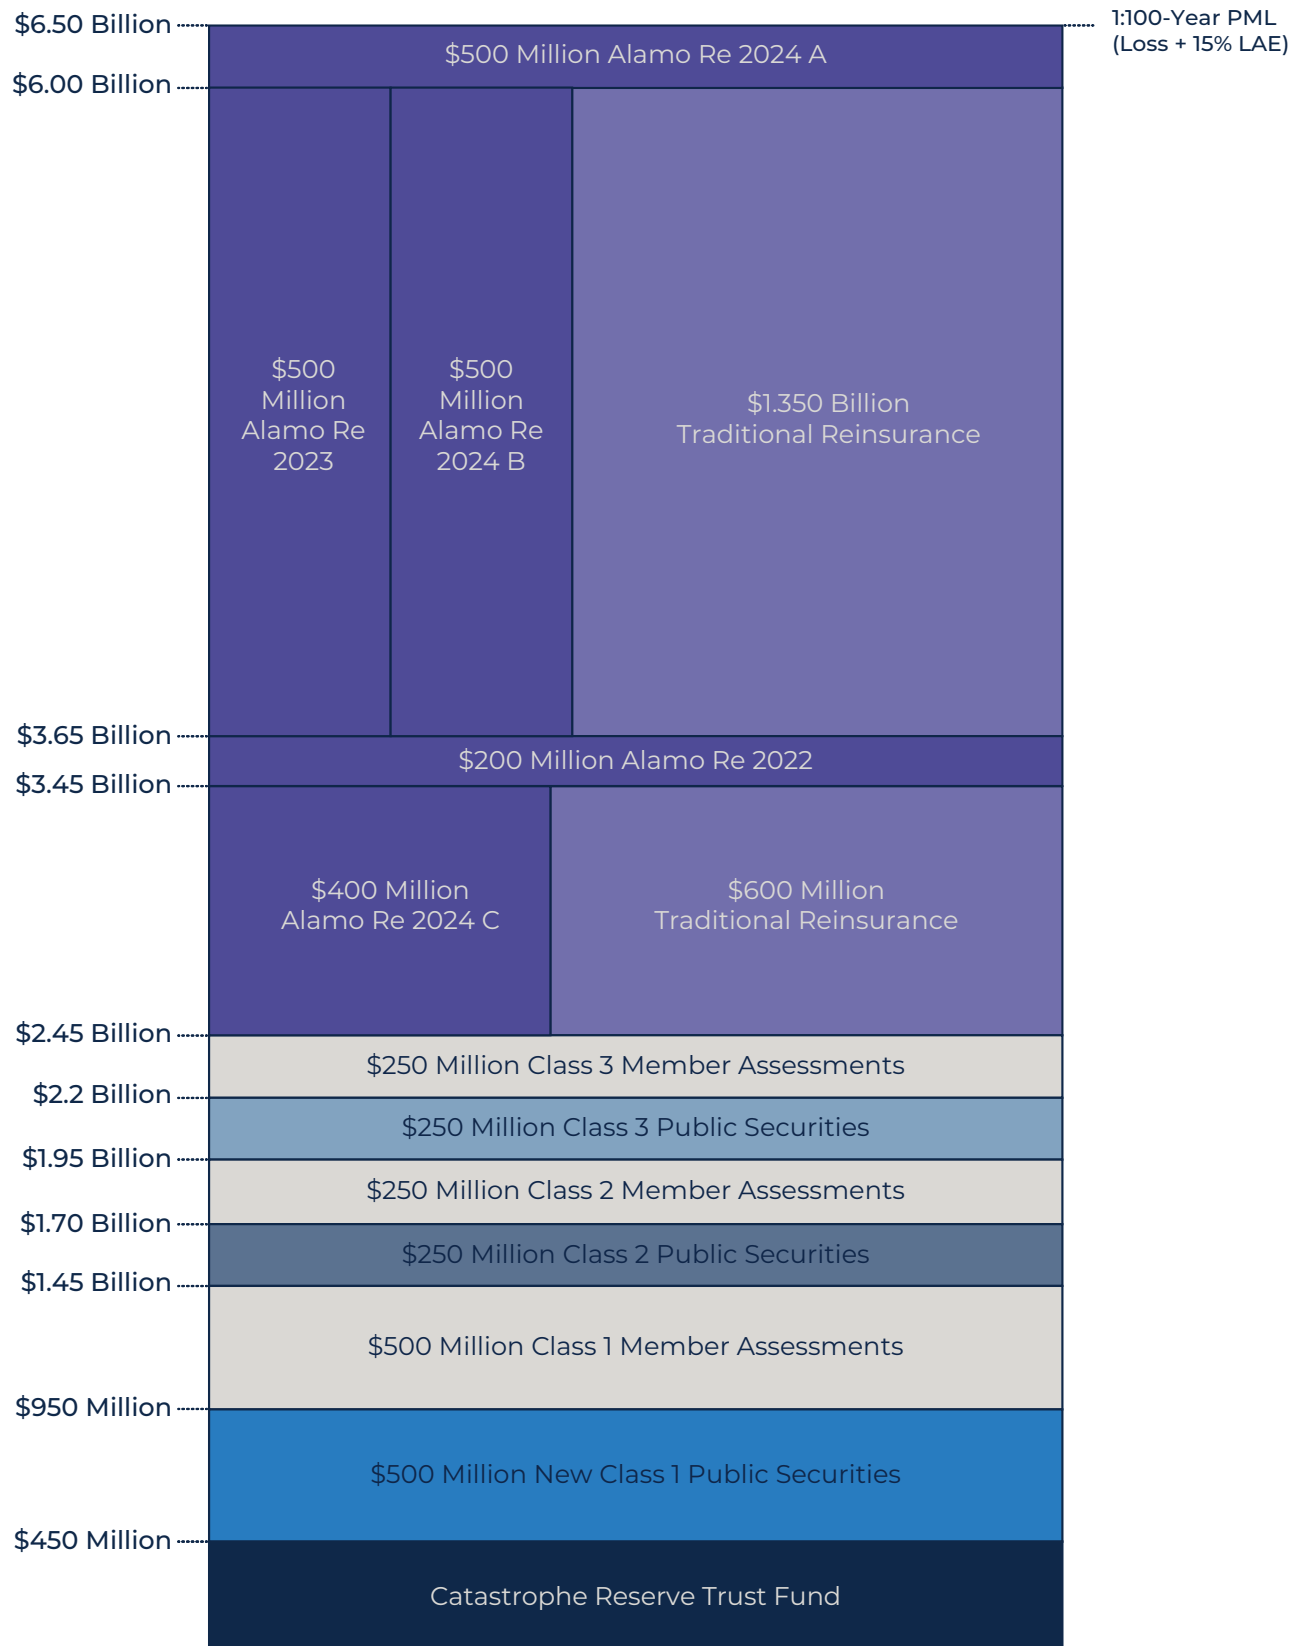

TWIA's 2024 reinsurance program, effective June 1, 2024, to May 31, 2025, provides \$6.5 billion in total aggregate funding, an amount that meets the statutory minimum funding requirement. TWIA's funding sources include the purchase of reinsurance, relying on a combination of traditional reinsurance contracts and catastrophe bonds. The traditional reinsurance program provides coverage on an aggregate basis, meaning multiple hurricane events would be covered under the same reinsurance program.

The 2024 reinsurance program includes:

- \$1.4 billion in newly-issued catastrophe bonds (Series 2024-1)
- \$700 million in existing catastrophe bonds (Series 2022-1 and Series 2023-1)
- \$1.95 billion of traditional reinsurance

A historical comparison of funding levels since 2015 is below, followed by TWIA's funding for the 2024 hurricane season.

TDI Proposed and Adopted Rules

Texas Insurance Code Section 2210.008 provides the Commissioner of Insurance general rulemaking authority to issue any orders necessary to implement Section 2210. The following new rules related to the Association were proposed or adopted during the reporting period (June 1, 2023 to May 31, 2024).

Chapter 5. Property and Casualty Insurance
Subchapter E. Texas Windstorm Insurance Association,
Division 4. Consumer Assistance; Claim Processes

Section Number	Proposal Filed	Proposal Published	Adoption Filed	Adoption Published	Effective Date
§5.4211	10/26/2023	11/10/2023	01/02/2024	01/19/2024	01/22/2024
§5.4215 and §5.4233	05/24/2024	06/14/2024			

Plan of Operation Revisions

Texas Insurance Code Sections 2210.151-2210.153 provide that, with the assistance of the Board of Directors, the Commissioner of Insurance by administrative rule will adopt a plan of operation to provide windstorm and hail insurance in the catastrophe areas. The Plan of Operation is in the Texas Administrative Code, Title 28, Chapter 5, Subchapter E.

TDI continues its review of TWIA's Plan of Operation, which requires updates to implement legislative changes from past sessions and remove outdated information. Association staff and outside counsel have been working with TDI to reorganize the Plan, eliminate unnecessary provisions, and convert the wording to plain language.

The Plan revision project is in progress and consists of two phases. The first phase involved reorganizing the Plan, publishing a table of contents, and requesting comments from the public on the reorganization. The second phase, which is currently underway, consists of rewriting, streamlining, and updating the Plan's contents. Once the working group completes its revision of the content, the Plan of Operation will be published for public review and comments.

Standards of Conduct

Business Ethics and Conflicts of Interest Policy

TWIA first developed and implemented a comprehensive Business Ethics and Conflict of Interest Policy ("Ethics Policy") in February 2011. The policy has undergone revisions over time, most recently in May 2021.

Pursuant to Texas Insurance Code Sections 2210.012 and 2210.013, the Ethics Policy states that an employee of the Association or member of the TWIA Board of Directors shall not:

- Accept gifts or favors that might tend to influence them in the discharge of their duties;
 - Accept employment or engage in a business or professional activity that might reasonably cause them to disclose confidential information acquired as a Board member;
-

- Accept employment or compensation that could impair the member's independence of judgment related to the operation or business of the Association;
- Make personal investments that could create a conflict;
- Contract with or hire family members to provide services paid with TWIA funds;
- Accept or solicit any benefit for exercising a member's powers as a director; or
- Accept or solicit any benefit for performing one's Association duties in favor of another.

Texas Insurance Code Section 2210.015, enacted in 2011, prohibits certain contracts and employment relationships. Specifically, the Association is prohibited from contracting with or employing individuals related to a Board member or current employee within the second degree of affinity or the third degree of consanguinity.

The Ethics Policy mirrors the Insurance Code provisions to ensure adherence to both the letter and spirit of the law, as well as to avoid even the appearance of improprieties.

Fraud Reporting

Texas Insurance Code Section 2210.012 also mandates that “a board member or employee of the Association who reasonably suspects that a fraudulent insurance act has been or is about to be committed by any board member or employee of the Association shall, not later than the 30th day after discovering the conduct, report the conduct and identity of the person engaging in the conduct to the department and may report the conduct and the identity of the person engaging in the conduct to another authorized governmental agency. The department shall forward a report received under this subsection to the authorized governmental agency in accordance with Chapter 701.”

TWIA has implemented certain initiatives to ensure compliance with the applicable Insurance Code provisions. The Association's Special Investigation program for claims uses an experienced investigation firm, Veracity Research Company Investigations (VRC). The program includes mandatory and recommended Special Investigations Unit (SIU) referral guidelines based on industry standards and best practices. TWIA's SIU program tracks referral rates, results, and reports made to TDI's Fraud Intake Unit.

The following chart shows the number of fraud investigations and reports submitted to TDI since 2013. As of April 30, 2024, the Association has submitted 4 fraud and 0 enforcement reports to TDI.

TDI Fraud Reports Filed by Year

Open Meetings and Open Records

Texas Insurance Code Section 2210.105 requires that, except for an emergency meeting, the Association shall notify TDI not later than the 11th day before the date of a meeting of the Board of Directors or of the members of the Association, and not later than the seventh day before the date of a meeting of the Board of Directors, post notice of the meeting on TWIA's and TDI's websites. Section 2210.105 requires, except for a closed meeting authorized by Subchapter D, Chapter 551, Government Code (Texas Open Meetings Act), a meeting of the Board of Directors or of the members of the Association to be open to the Commissioner or the Commissioner's designated representative and the public. Section 2210.105 requires that TWIA broadcast live on its website all meetings of the Board of Directors, other than closed meetings, and maintain on its Internet website an archive of meetings of the Board of Directors. A recording of a meeting must be maintained in the archive on the website up to the second anniversary of the broadcast. Section 2210.108 provides that, except as specifically provided by Chapter 2210 or another law, TWIA is subject to Chapter 551 Texas Government Code, the Texas Open Meetings Act.

The Association continues to meet the requirements of the Open Meetings Act by complying with posting requirements for meetings of the Board of Directors and its subcommittees, as well as live broadcasting of meetings and archiving of those meetings for later viewing on the Association website.

Texas Insurance Code Section 2210.108 also provides that, except as specifically provided by Chapter 2210 or another law, TWIA is subject to Chapter 552 Texas Government Code, the Texas Public Information Act. TWIA receives and responds to requests in accordance with the Act. From June 1, 2023, through April 30, 2024, TWIA has received 13 open records requests.

Depopulation

Pursuant to Texas Insurance Code Chapter 2210, Subchapter O (Sections 2210.701-2210.705), TWIA is required to administer a depopulation program that encourages the transfer of Association policies to insurers through the voluntary market or assumption reinsurance. The following sections include detailed descriptions of both programs and an update on their status.

Voluntary Market Depopulation Program

Authorized by the Texas Legislature in 2015, the Voluntary Market Depopulation Program allows participating insurers to make offers on TWIA policies one at a time at policy renewal. A Texas-authorized insurer must execute a Non-Disclosure Agreement (NDA) and Participation Agreement to access TWIA policy data and identify policies on which it wishes to make offers of insurance. The insurer works with the policyholder's current agent, either through appointment or a limited servicing agreement, to present the offer to the policyholder. The policyholder and agent may accept or reject any offer.

Assumption Reinsurance Depopulation Program

The Assumption Reinsurance Depopulation Program allows participating insurers to make offers on large numbers of TWIA policies at one time. Under the program, interested insurers must file rates with and have forms approved by TDI and sign an NDA and Participation Agreement to review and select the TWIA policies on which they are interested in making an offer. Participating insurers are also subject to financial stress testing. Participating insurers must offer comparable coverage and premiums to the TWIA policy and must offer at least three renewals under these comparable terms to any policy taken out as part of the program.

Agents can approve or reject any offers made by participating insurers through TWIA's depopulation website. Policyholders can opt out of the depopulation process, and any policyholders who do not elect to remain with TWIA will automatically have their TWIA policies assumed by or transferred to the participating insurer. This program repeats annually.

Depopulation Programs Status

Voluntary Market Depopulation Program

As of April 30, 2024, four carriers have reported a total of 4,854 policies bound through the Voluntary Market Depopulation Program. Weston Insurance Company, State National Insurance Company, United Property and Casualty (UPC), and USAA Casualty Insurance Company each received approval to participate in the program and reported binding multiple policies before electing to discontinue their participation. USAA subsequently applied to renew its participation in the Voluntary Market Depopulation Program, which TDI approved on December 1, 2021. USAA made additional offers to 318 policies through the program again in late 2022. No policies have been bound through the Voluntary Market Depopulation Program since 2022.

Voluntary Depopulation Program Participation

Carrier	Number of Policies Bound
Weston Insurance Company	2,506
State National Insurance Company	1,876
USAA Casualty Insurance Company	401
United Property and Casualty	71

Assumption Reinsurance Depopulation Program

The last active round of the Assumption Reinsurance Depopulation Program was Round 6 (2022-2023), which ended on March 1, 2023, with 46 policies transferring to the one participating carrier. The Assumption Reinsurance Depopulation Program is currently dormant as no carriers submitted applications to participate in Rounds 7 or 8 of the program.

This chart provides an overview of Rounds 1 through 6, the active rounds, of the Assumption Reinsurance Depopulation Program:

Assumption Reinsurance Depopulation Program

Program Year	2016-2017	2017-2018	2018-2019	2019-2020	2021-2022	2022-2023
Participating Carriers	4	3	2	2	1	1
Policies Selected by Carriers	102,171	109,356	75,039	64,380	32,318	31,959
Agent-Approved Offers	18,047	3,091	3,967	1,866	210	79
Policies Assumed	11,164	1,634	2,080	1,002	125	46

TDI Coast and Ombudsman Program

TWIA is in compliance with Texas Insurance Code Section 2210.582 to establish an ombudsman program to assist TWIA policyholders in understanding and navigating the claims process. TDI established the Coastal Outreach and Assistance Services Team (COAST) program and adopted rules relating to its function in 2012. TWIA's claims correspondence and website include information about the program. TWIA fully funds the program based on the budget provided by TDI each March.

"Ready to Respond" Hurricane Preparedness Program

Every year, before and during hurricane season, TWIA undertakes various activities to raise awareness of hurricane preparedness. The "Ready to Respond" Hurricane Preparedness Program goal is to increase awareness of the important role insurance plays in preparing for and recovering from a storm, minimize hurricane-related losses, and enhance the overall claims experience for policyholders.

TWIA helps raise awareness of hurricane preparedness in three ways.

- **Partner Events:** TWIA employees attend and present at a variety of webinars and events, many hosted by FEMA and regional NFIP offices, coastal Offices of Emergency Management, local offices of the National Weather Service, and area economic development groups and chambers of commerce. Presentations focus on how insurance is an integral part of being prepared, coverage types, what to expect from and how to navigate the TWIA claims process, windstorm certification requirements and exceptions, how TWIA's role contributes to a catastrophe response, and important changes resulting from recent legislation.

TWIA catastrophe planner David Lawson briefs Corpus Christi media on hurricane preparedness at the 2024 Coastal Bend Hurricane Conference.

2023/2024 Outreach Events

- **Hurricane Preparedness Event**
June 27, 2023: Friendswood, TX
- **South Texas Community Summit**
January 18, 2024: Austin, TX
- **National Tropical Weather Conference**
April 2-4, 2024: South Padre, TX
- **Coastal Bend Hurricane Conference**
May 1-2, 2024: Robstown, TX
- **Texas Division Emergency Management Conference**
May 28-31, 2024: Fort Worth, TX

- **“Before the Storm” content:** TWIA develops a range of content including videos, graphics, GIFs, and print and digital advertisements to emphasize the importance of insurance coverage. These materials encourage coastal citizens to review their policy coverages regularly, meet with insurance agents annually, and understand the process of reporting and managing a claim. The Association distributes this content through various channels such as coastal hurricane guides, the TWIA website, Facebook and Nextdoor pages, and content streaming services.
- **“After the Storm” content:** TWIA produces various forms of content, including videos, graphics, website content, and printed materials, to provide clear explanations of the TWIA claims process and what policyholders can anticipate. These informative resources are accessible on the TWIA website and are also shared with adjusting firms and agents in advance of an approaching storm. Additionally, the Association prepares printed materials and other communication materials specifically tailored for storm response, which are ready for printing and distribution at mobile claims centers.

Hurricane Guide Print Ad

HURRICANES MAKE A BIG MESS.

Hurricane damage can trigger claims on different insurance policies. A wind policy doesn't cover flood damage, and a flood policy doesn't cover wind damage.

Talk to your agent now to verify your property is fully covered.

DIFFERENT INSURANCES HELP YOU CLEAN UP.

After a storm:
Report your claims immediately
Be ready to pay your deductibles
Stay involved in the claims process

The mission of Texas Windstorm Insurance Association is to provide essential wind and hail property insurance to coastal Texans when no one else will.

TEXAS WINDSTORM
INSURANCE ASSOCIATION

TEXAS FAIR PLAN
ASSOCIATION

TWIA & TFPA

Catastrophe Incident Response Plan

David Durden, General
Manager

General Manager’s Message

The Texas Windstorm Insurance Association (TWIA) and the Texas FAIR Plan Association Catastrophe Incident Response Plan (CAT Plan) is our guiding framework for responding to our policyholders after a catastrophic storm.

Each year the CAT Plan is rigorously reviewed, tested, and subjected to a thorough after-action report (AAR) process. This process continuously improves our ability to respond swiftly, effectively, and efficiently in the aftermath of a storm. It ensures that every year TWIA is more prepared than the last for the hurricane season ahead.

The 2024 Plan incorporates updates focused on strengthening our internal response framework, enhancing our Deployment Plan, streamlining our contractor onboarding process, and emphasizing communication and coordination with federal, state, and local emergency management.

For us, the CAT Plan holds significance beyond its statutory obligation. It’s our promise to our policyholders that we will be there when they need us the most.

With gratitude for your trust in us,

David Durden
TWIA and TFPA General Manager

Living Document Disclaimer

This is a living document prepared per Section 2210.455 of the Texas Insurance Code. In the event of any inconsistency or discrepancy, the controlling policy, regulation, or law prevails. All content found within this plan is subject to change, with the exception of that which is mandated by statute. Printed or distributed copies cannot be controlled. Announcements contained in such printed or electronic materials are subject to change without notice and may not be regarded in the nature of binding obligations on the Association.

Introduction

Purpose

The Catastrophe (CAT) Incident Response Plan describes the activities Texas Windstorm Insurance Association (TWIA) and the Texas FAIR Plan Association (TFPA) will conduct in preparation for, and in response to, a catastrophic incident. This document demonstrates planning and mitigation efforts, deployment procedures, and continuous improvements initiatives TWIA and TFPA employ throughout the year.

Background

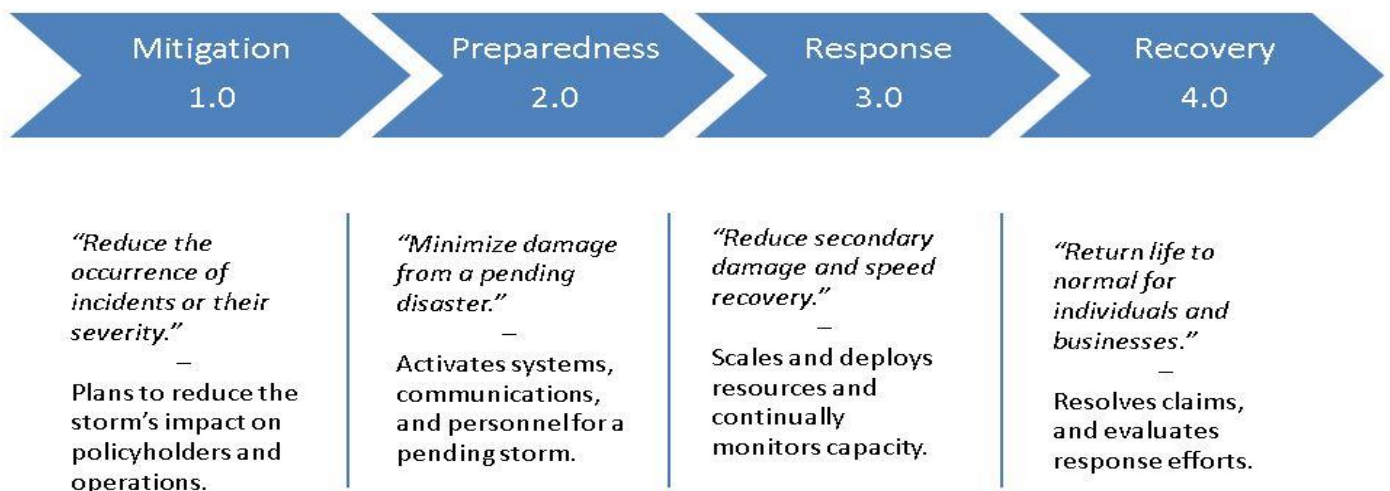

Texas Insurance Code 2210.455 requires TWIA to submit a Catastrophe Response Plan on June 1st of each calendar year, and that planning should occur for the following scenarios: 1% probability event (1 in 100 year), 2% probability event (1 in 50 year), and 4% probability event (1 in 25 year). TFPA is not subject to Chapter 2210, but fully participates in incident planning and remains ready for the various kinds of incidents that may impact TFPA policyholders. These requirements are guidelines and should not bind the Associations to a particular course of action.

About This Plan

This plan provides a response framework for the Association and guidance for departments and personnel. Based on principles and best practices utilized by the Federal Emergency Management Agency (FEMA) and other response organizations, the structure of the plan is built around the four phases of a response; mitigation, preparedness, response, and recovery. Each objective in the plan covers actions and duties for both the Association and individual departments.

The objectives in the plan are broken up into eight sections; the description of the objective, the purpose, departmental and individual participants, action plans, exhibits, additional information, compliance, and QA or Testing.

Plan Phases:

Mitigation Phase (1.0)

According to the Federal Emergency Management Agency (FEMA) the goal of mitigation is not to prevent natural disasters, but to “reduce their severity.” Planning for mitigation occurs Enterprise-wide. Departments participate in personnel training, the updating of documentation, and strategic planning for how to scale up resources and supplies when faced with a catastrophic incident.

Even before an active threat is on the horizon, TWIA and TFPA have completed the work necessary for an efficient and effective catastrophic incident response. Further effort is focused on completing yearly planning, on testing prior to hurricane season, and on corrective action planning.

TEXAS FAIR PLAN
ASSOCIATION

TEXAS WINDSTORM
INSURANCE ASSOCIATION

1.1 Maintain a Catastrophe (CAT) Incident Response Plan

Objective 1.1	To maintain a catastrophe (CAT) incident response plan.
Description	Assure a detailed Plan is in place. Update and make improvements to the Plan after an incident or a test. Annually submit updated Plan as required by Texas Insurance Code 2210.
Purpose	<ul style="list-style-type: none">To plan for delivering essential services in the case of a catastrophic incident.To keep the Plan current with changes in the Associations' workflows and procedures.
Participants	General Manager, All Departments
Action Plans	<p>Claims</p> <ul style="list-style-type: none">Selects the Plan committee and recruits staff to assist with updates.Sets regular meetings of the committee to develop updates.Implements feedback from Plan tests.Meets with TWIA/TFPA Departments to review updates. <p>All Departments</p> <ul style="list-style-type: none">Review Plan to identify and assess roles and responsibilities.Assist with updating the Plan, including sending updates to the CAT Plan committee.Assist with training Department staff on Plan requirements.Work under Corrective Action Program (CAP) to ensure continuous improvement.Assist with implementing testing, including Department tests of relevant objectives. <p>General Manager and Executive Leadership Team</p> <ul style="list-style-type: none">Review and give Plan approval. <p>Legislative & External Affairs</p> <ul style="list-style-type: none">Submits Plan to internal and external stakeholders no later than June 1. <p>Claims</p> <ul style="list-style-type: none">Works with Executive Leadership Team to identify areas for improvement and creates an improvement plan including testing, training and exercises.
Exhibits, or Related Documents	Appendix A - CAT Plan Revisions Log
Additional Information	
Compliance	Fulfills the need to model one, two, and four-in-100-year storms, and the need to describe pre- and post-storm processes as per Texas Insurance Code 2210.455.
QA or Testing	

1.2 Maintain Methodologies for Incident Analysis and Exposure Modeling

Objective 1.2	To maintain methodologies for incident data analysis and exposure modeling.
Description	Maintain methodologies to predict and confirm weather data in order to forecast and assess claims for a catastrophic incident.
Purpose	To plan for delivering essential services in the case of a catastrophic incident.
Participants	Claims, Actuarial
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> • Assigns business analyst to gather, format, and update Policy-In-Force (PIF) data. • Receives storm activity data each day across the U.S. from weather data vendor. • Maintains services with weather data vendor to automatically order wind or hailstorm reports for the address of a policyholder filing a claim. • Runs regularly scheduled queries for Policy in Force (PIF) data for TWIA/TFPA. • Runs ad hoc queries for Policy in Force (PIF) data, as needed. • Trains resources on weather tracking and exposure modeling. • Evaluates and purchases web tools for storm data tracking. • Maintains process for determining potential PIF impact depending on the number of policies in impacted Association territories. • Maintains spreadsheet with formulas to model potential exposures in the case of a catastrophic incident. <p>Actuarial</p> <ul style="list-style-type: none"> • Manages the modeling of TWIA and TFPA exposures prior to hurricane season and provides updates to Claims
Exhibits, or Related Documents	<ul style="list-style-type: none"> • Hail/Wind Shape File Data Map • Exhibit 1 “Hurricane/Tropical Storm Loss Projection Model.”
Additional Information	
Compliance	Fulfills the need to describe pre- and post-incident processes as per Texas Insurance Code 2210.455.

1.3 Utilize Scalability Modeling to Predict Staffing Needs

Objective 1.3	To utilize scalability modeling to predict staffing needs.
Description	Model the number and type of staff needed to provide essential services for the following scenarios: 1% probability event (1 in 100 year), 2% probability event (1 in 50 year), and 4% probability event (1 in 25 year).
Purpose	<ul style="list-style-type: none">• To increase the ability to activate resources after a catastrophic incident.• To uphold the Associations' commitment to deliver prompt and fair claims service.
Participants	Claims, IT, All Departments, General Manager
Action Plans	<p>Claims</p> <ul style="list-style-type: none">• Obtains and formats relevant data for incident modeling and exposure modeling• Creates resource scalability models for one, two, four, and ten-in-100 year incidents.• Continually adapts the "Claims Resource Scalability Model" to estimate capacity based on exposure modeling and projections.• Compares current resources against scalability models to gauge capacity.• Continually assesses need for approved claims examiners, managers, customer care, quality assurance, field re-inspectors, field adjusters, emergency mitigation, engineers, building consultants, and contents specialists.• Publishes approved vendor fee schedules.• Confirms available resources and maintains approved vendor contact information.• Runs indirect incident modeling in the case of incidents outside Association territories.• Maintains mobile office and off-site office staffing plans for various CAT scenarios. <p>All Departments</p> <ul style="list-style-type: none">• Use the Resource Scalability Model (Exhibits 2-5) to determine departmental scaling needs <p>General Manager reviews quarterly updates on vendor assignment process.</p>
Exhibits, or Related Documents	Exhibit 2, 3, 4, & 5
Additional Information	<ul style="list-style-type: none">• In addition to complying with Texas Insurance Code 2210.455, also models ten-in-100 year incidents (i.e., 10 percent event).
Compliance	<ul style="list-style-type: none">• Fulfills the need to model one, two, and four-in-100 year incidents, and the need to describe pre- and post-incident processes as per Texas Insurance Code 2210.455.• Fulfills the Texas Insurance Code requirement to implement indirect incident modeling once per year.

1.4 Maintain Plans for Deploying Mobile Claims Center and Remote Facilities

Objective 1.4	To maintain plans for deploying mobile claims center and remote facilities.
Description	Create site requirements (i.e., supplies) for mobile and remote facilities.
Purpose	<ul style="list-style-type: none"> To prepare a physical location to provide immediate policyholder assistance, including first notice of loss (FNOL), claim status information, and advanced payments. To have off-site space to house additional customer care and data entry resources.
Participants	Claims, Facilities, Legal and Compliance
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> Establishes criteria for activating mobile claims center and remote facilities. Maintains contract with Agility to provide mobile office units, equipment, network, and phone patch within 48 hours of notification. Identifies locations for mobile offices in TWIA/TFPA territories. Maintains requirements for mobile claims center. Searches each year for additional office space for claim operations during a CAT. Develops plans to identify roles and responsibilities in the event of a deployment of the mobile claims center. Works throughout the year to identify possible basecamps. <p>Facilities</p> <ul style="list-style-type: none"> Works with Claims to order supplies and equipment for off-site facilities. Plans for security for mobile claims center and remote facilities. Packages approved handbooks, policies, forms, brochures, etc. for off-site offices. . <p>Legal and Compliance</p> <ul style="list-style-type: none"> Legal review of all contracts, including those related to off-site facilities. Ensures all required insurance policies are in place for off-site facilities.
Exhibits, or Related Documents	<ul style="list-style-type: none"> Mobile Claims Center and Remote Facilities aims Processing Workflow Exhibit 6 “Site Plan for TWIA/TFPA Mobile Claims Center.”
Additional Information	<ul style="list-style-type: none"> Office solutions are deployed within 48 hours of landfall or when it is safe to travel. Association utilizes available hotel and partners’ office space before renting space. Mobile Claims Centers provided by RK included a 50x50 vinyl tent, complete with HVAC and connectivity options. The Agility unit supports: 30 customer seats, two reception seats, 21 computer workstations, one office, generator, HVAC, wireless network, and satellite phone. Agility unit qualifies as RV, meaning few restrictions for on-site placement.

Exhibit 6: Site Plan for TWIA/TFPA Mobile Claims Center

Objective 1.5	To forecast needs for office supplies and equipment in the following scenarios: 1% probability event (1 in 100 year), 2% probability event (1 in 50 year), and 4% probability event (1 in 25 year).
Description	Plan for ordering and repairs in the event of rapidly increased demands on office supplies and equipment, including planning for extended-hour scenarios.
Purpose	<ul style="list-style-type: none">• To uphold the Associations' commitment to deliver prompt and fair claims service.• To establish processes for ordering and delivering supplies to mobile claims center and remote facilities.
Participants	Facilities
Action Plans	Facilities/Operations <ul style="list-style-type: none">• Maintains inventory of supplies (e.g., chairs, workstations, and storage).• Forecasts increased demand on workspaces, supplies, and equipment, including supplies needed at remote facilities based on current safety standards.• Plans to obtain additional office supplies, create building access badges, and distribute CAT Supplies Box within 48 hours of the activation of this Plan.• Identifies additional snacks and drink vendor services and cleaning services needed.• Coordinates additional parking for staff onsite with Transwestern Property Management, mobile claims center, and remote facilities.• Coordinates with Claims and IT to determine process for adding printer, scanner, and fax server capacity.• Plans for additional security and extended hour security for Austin facilities.
Exhibits, or Related Documents	
Additional Information	
Compliance	Fulfills the need to model one, two, and four-in-100 year incidents, and the need to describe pre- and post-incident processes as per Texas Insurance Code 2210.455.
QA or Testing	

1.5 Forecast Needs for Office Supplies and Equipment

1.6 Evaluate and Optimize Claims Technology

Objective 1.6	To evaluate and optimize claims technology needed in the following scenarios: 1% probability event (1 in 100 year), 2% probability event (1 in 50 year), and 4% probability event (1 in 25 year).
Description	Determine whether current systems are sufficient, or whether upgrades or additional licenses are needed.
Purpose	<ul style="list-style-type: none">• To uphold the Associations' commitment to deliver prompt and fair claims service.• To expedite software and hardware purchasing during a catastrophic incident.
Participants	IT, Claims
Action Plans	<p>IT</p> <ul style="list-style-type: none">• Meets with Claims and Underwriting to review systems, identify necessary upgrades, and implement software and hardware changes.• Maintains quotes for expanding software licenses.• Develops network access solutions for on-site and off-site workspaces, including assessing Agility satellite capabilities, wireless phones, and laptops for remote facilities and mobile claims center(s).• Communicates with Claims and Facilities about plans for off-site office equipment.• Manages Austin phones, line/voicemail capacity, and IVR.• Reviews Resource Scalability Model to ensure the ability to scale up phone numbers and licenses for all four modeled storms.• Conducts performance testing of the data center for scalability response time, availability, and reliability.• Review all character limits associated with core administration systems and works with tech liaisons to ensure conformity across systems.• Look to implement automated monitoring of system queues• Work with Claims to identify software to help handle the influx of videos submitted by policyholders.• Ensure all tickets related to Storm Mode for all core applications are addressed before June 1st of each year. <p>Claims</p> <ul style="list-style-type: none">• Evaluates claims technology systems for readiness: Web portals, software, hardware, telephony, remote access, data management, and reporting.• Review and address roles and authorities in Claims Center on a yearly basis.• Work with other departments to identify Claims Center access needs to create roles• Works with IT throughout the year to ensure all "workarounds" within the core administration system have been identified and addressed before June 1st of each year.• Review the system's roles and groups to ensure preparedness for onboarding of

Compliance	Fulfills the need to model one, two, and four-in-100 year incidents, and the need to describe pre and post-incident processes as per Texas Insurance Code 2210.455.
QA or Testing	

1.7 Maintain a Deployment Plan

Objective 1.7	To enlist TWIA/TFPA staff for deployment in the case of a catastrophic incident.
Description	Develop and maintain a deployment plan
Purpose	To set expectations with current staff for possible needs outside of this building.
Participants	CAT Plan Update Team
Action Plans	<p>CAT Plan Update Team</p> <ul style="list-style-type: none">• Creates a plan to inform both Claims and non-Claims staff of the possibility of deployment in the case of a catastrophic incident.• Prepares a formal list of Claims and non-Claims staff, willing to relocate to the incident area, every year.• Maintains database listing volunteers for deployment.• Identifies possible testing, training, and exercise opportunities• Works with business units to ensure policies and procedures are in place to enable resources in the event of a deployment. <p>All Departments</p> <ul style="list-style-type: none">• Assist with identifying staff by role available for deployment.
Exhibits, or Related Documents	
Additional Information	
Compliance	Fulfills the need to model one, two, and four-in-100 year incidents, and the need to describe pre- and post-incident processes as per Texas Insurance Code 2210.455.
QA or Testing	

1.8 Onboarding of Fixed and Variable Staff

Objective 1.8	To onboard fixed and variable staff.
Description	Contract with vendor resources so they can be prepared for CAT response. Develop and retain resources prepared to serve after a catastrophic incident.
Purpose	To uphold the Associations' commitment to deliver prompt and fair claims service.
Participants	Claims, Human Resources, Legal and Compliance
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> • Verifies that vendor partners remain compliant with TWIA/TFPA requirements. • Maintains a list of approved vendors. • Provides copies of new staffing firm agreements for Legal & Compliance and Human Resources. • Maintains claim adjuster licensing database for staff and contractors. • Conducts audits to determine any conflicts of interest with vendor contractors. • Maintains relationship with a network of contractors. • Provide annual in-person training for field adjusters in TWIA's standards, PDEG, and culture. • Hosts the following yearly certifications: TWIA/TFPA Residential Adjuster Certification, TWIA/TFPA Desk Examiner Certification, TWIA/TFPA Manager and Supervisor Training. • Creates training materials for non-claims resources to assist in status calls, etc. • Sends "Vendor Business Continuity Procedures Form" to approved vendors. • Remind staff to continue to refer non-compliance of public adjusters to SIU and/or Compliance. <p>Human Resources</p> <ul style="list-style-type: none"> • Administers temporary/contract resources to supply labor for the Mobile Claims Unit. <p>Legal and Compliance</p> <ul style="list-style-type: none"> • Assigns Ethics Policy for review and acknowledgement (including Relationship Disclosures) to all new employees and contractors. • Trains new staff and contractors in TWIA 101. • Refer fraud and enforcement concerns to TDI for additional review and possible investigation.
Exhibits, or Related Documents	<ul style="list-style-type: none"> • Field Adjuster Online Training • Vendor Business Continuity Procedures Form
Additional Information	
Compliance	Fulfills the need to model one, two, and four-in-100 year incidents, and the need to describe pre- and post-incident processes as per Texas Insurance Code 2210.455.

1.9 Foster Compliance with Mandated Timelines

Objective 1.9	To foster compliance with mandated claims-handling timelines.
Description	Administer training for claims-handling timelines. Coordinate Departments whose workflows are interdependent with the claims process.
Purpose	<ul style="list-style-type: none"> To efficiently provide essential insurance products and services for policyholders. To comply with sound insurance principles and regulations.
Participants	Claims, Legal and Compliance, Underwriting
Action Plans	<p>Claims trains staff in non catastrophe metrics expectations, including but not limited to the following:</p> <ul style="list-style-type: none"> First Contact Timeline: Same day contact with insured if received before 4pm, 24 hours if received after 4pm. Independent Adjuster (IA) First Contact: Contact with insured within 24 hours after assignment. Send letter if contact not established within three days. IA Report Timeline: Within 15 days of assignment. Additional reports every 15 days thereafter until completed. (Examiner contacts IA Firm if 48+ hours late.) Claim Decision Timeframe: Notify insured of claim decision in writing not later than 60 days after claim received, or the 60th day after adjuster or TWIA receives information requested from the insured (TIC 2210.573(d)). Texas Insurance Code 2210.541 and 2210.542 trainings for TFPA resources. Provides documentation to inform all TWIA/TFPA staff how to assist customers submitting first notice of loss (FNOL) or other routine requests. Provides supervisor and leadership training for TWIA/TFPA Claims staff to ensure readiness if the need arises for staff to lead teams of contract examiners. Conduct yearly reviews of Claims letters to ensure compliance and readability for policyholders. Create a CAT Team Lead Handbook that speaks to the workflows and processes for team leads during a catastrophe. <p>Underwriting</p> <ul style="list-style-type: none"> Maintains a process for verifying coverage with policy validation workflows with Claims (e.g., coverage verification and “no policy” processes). Prepares dedicated resources for real-time CAT response. Works with Claims throughout the year to better understand the resources needed in the event of an activation. Creates awareness with management on how to turn Storm Mode on/off in core applications.

1.10 Slab Claim Settlement – Guidelines & Required Actions

Objective 1.10	TWIA Slab Claim Settlement – Guidelines & Pre-Storm Required Activities
Description	The sections prescribe guidelines TWIA must use to settle certain claims. The guidelines are based on the recommendations of a panel of experts, charged with recommending methods or models for determining the extent to which a loss may be or was incurred as a result of wind, waves, tidal surges, or rising waters not caused by waves or surge.
Purpose	<ul style="list-style-type: none">• To ensure compliance with Texas statutory and regulatory requirements for TWIA to use to resolve slab claims• Guidelines apply only when TWIA expects at least 500 residential slab claims
Participants	VP Claims, designated slab claim data analysts, slab claim team desk examiners
Action Plans	<p>Claims</p> <ul style="list-style-type: none">• Gather, no less than once a year, updated applicable pre-event data on insured residential structures located in the required areas.<ul style="list-style-type: none">○ TWIA has contracted with RMS to annually, by June 1st, identify all insured residential structures located in the National Flood Insurance Program Zones, V, VE, and V1-V30 and provide updated and required property characteristic data.• Acquire pre-event high-resolution aerial and on-ground photographs of insured residential structures located in the National Flood Insurance Program Zones, V, VE, and V1-V30 to define building characteristics and terrain.• Work with vendors to conduct annual flyovers for aerial imagery. TWIA has contracted with Eagleview for this purpose. Eagleview also maintains a historical database of aerial imagery for TWIA's use.• Utilize on-ground photographs, available in the TWIA Underwriting files where property inspections have occurred, prior claim files, and from other sources including Geomni & Google Earth.• Take steps throughout the year to ensure the deployment of mobile measurement platforms and fixed surface-level devices that:<ul style="list-style-type: none">○ Provide real-time wind speed and direction measurements during the applicable storm.○ Can be used both for forecasting and producing post-event wind field hind casts.• Wind measurements must be capable of generating gust wind speed and wind-direction time histories during an applicable storm.• Deploy at least 40 to 60 mobile wind measurement platforms in two layers, with the first layer in close proximity to the coastline and the second layer approximately 20 miles inland. The mobile wind measurement platforms must be deployed as follows:<ul style="list-style-type: none">○ Three to five miles apart in the eyewall region of the storm○ Up to 10 miles apart in the outer regions of the storm○ With a wind speed and direction sampling frequency of 10 hertz or higher○ A temperature, barometric pressure, and relative humidity sampling frequency of 1 hertz or higher

TEXAS FAIR PLAN
ASSOCIATION

TEXAS WINDSTORM
INSURANCE ASSOCIATION

	<ul style="list-style-type: none">○ Deploy sufficient mobile wind measurement platforms along the coast in front of a land-falling storm to ensure that a high-resolution wind field with small errors—no more than $\pm 2\%$ of the maximum sustained wind measured in 30-minute period—can be developed for use in wind damage prediction● Where reasonable, the mobile wind measurement platforms must be co-located with surge and wave gauges. TWIA must develop one or more observational models for constructing a wind field to obtain:<ul style="list-style-type: none">○ Site-specific wind speed and direction time histories that are used for wind damage prediction○ A wind field that can be used as input for a surge and wave model that outputs time histories for surge and wave damage prediction● Take steps to minimize errors between model estimates and the observed wind speeds and directions measured during an applicable storm.● Where data is not available from federal or state agencies, TWIA must take steps to acquire physical measurements of surge, wave, and high-water marks. Any contracts must be in place before each hurricane season.● Work with vendors to acquire up-to-date maps of policies impacted● Work with impacted departments to create stakeholder communications to inform and educate both affected policyholders and agents.

VERACITY RESEARCH COMPANY INVESTIGATIONS

SIU SERVICES

Mandatory Referral to SIU

- 1) Fire
- 2) Theft
- 3) Vandalism & Malicious Mischief
- 4) Liability – Bodily Injury & Property Damage
- 5) Any loss > \$25,000 Total Incurred
- 6) Suspicion that information submitted is false, altered or contains a forged signature
- 7) First edition policy or coverage amount increased shortly before loss reported
- 8) Loss reported more than 6 months from date of loss
- 9) Insured retains attorney or public adjuster after loss or prior to reporting loss
- 10) Field adjuster suspects mechanical damage
- 11) Claim reported following underwriting activity, especially if it's a cancellation notice
- 6) Individual is overly pushy, aggressive or demanding for a quick and/or reduced settlement
- 7) Owner cannot provide documentation confirming prior damage has been repaired
- 8) Actual ownership of property was transferred before date of loss
- 9) Evidence a recent quit claim deed was executed on the subject property
- 10) One neighborhood with several homeowners being solicited by the same roofer
- 11) Individual indicates distress over prospect of an examination under oath
- 12) Investigation reveals absence of family photo graphs, heirlooms, pets or items of sentimental value
- 13) Items claimed cannot physically fit in existing floor space
- 14) Recent change in family structure (divorce) or financial condition (bankruptcy, history of late payments, unemployment)
- 15) Losses include numerous appraised items, items of scheduled property, a large amount of cash, or family heirlooms
- 16) Loss amounts reported to the police and or fire department are inconsistent with the amount listed in the proof of loss or claim forms
- 17) Receipts are from businesses that are no longer active or we cannot determine if the businesses were ever active

Recommended Referral or Reasons to Update SIU

- 1) Premises are over-insured
- 2) Insured has previous or similar loss history
- 3) Property was under renovation or in poor condition at the time of loss
- 4) On storm-related perils, insured property is located outside of area of known storm activity
- 5) Individual provides altered documents

Preparedness Phase (2.0)

Since disasters cannot be prevented, it is necessary to promote a state of preparation for expected or pending incidents. This phase is called preparedness, and it is a response to a known potential threat. For TWIA and TFPA, preparedness means minimizing impact to claims processing by closely monitoring the severity and development of a particular incident.

Based on the development of an incident, executive leadership decides whether to activate catastrophe plans and communicate with external stakeholders. When it is clear the disaster will strike, TWIA and TFPA begin to set in motion the resources and business processes necessary for a timely response. This phase happens from the first notice of the incident and continues until landfall, or until it is reasonable to begin responding to the incident.

2.1 CAT Plan Activation

Objective 2.1	Track environmental conditions, model exposures, and communicate CAT Plan activation criteria when 500+ claims are expected or received from a single incident.
Description	Monitor potential incident(s) and location(s) for severe weather and other catastrophic incidents (e.g., wind, hail, and lightning). Track available incident information in real-time to determine whether or not to activate the Plan. Analyze criteria to help determine when to activate the CAT Plan.
Purpose	To ensure appropriate response for every type of catastrophic incident.
Participants	Claims, Actuarial and Accounting & Finance, Strategic Communications, Legislative & External Affairs, General Manager
Action Plans	<p>Claims</p> <ul style="list-style-type: none">• Identifies a resource to track weather that may impact the coverage area and communicate updates of the progress/track of a storm to Association management.• Works with Claims BA resources to conduct pre- incident claim volume modeling using available policy in force (PIF) and storm shape data.• Stays informed of National Weather Service (NWS) alerts and warnings through iNWS products and services.• Provides updates to Executives and Association management to provide insight into current conditions and projections.• Considers the following in the decision to activate Plan:<ul style="list-style-type: none">○ Involved cause(s) of loss (e.g., wind and/or hail).○ Severity of the incident (e.g., wind speed, hail size, depth of storm surge).○ Location and concentration of claims (e.g., widespread or centralized).○ Access to food and water.○ Status of communication resources.○ Habitability of homes and building mobility within the affected area.• At the discretion of the VP of Claims – The VP is to send a request to the General Manager to activate the plan. This request should include reasoning for activation. <p>Actuarial and Accounting & Finance</p> <ul style="list-style-type: none">• Models expected claim volume, average payments, and total incurred.• Provides guidance to the General Manager whether a pending incident will be a catastrophic loss that could impact funding adequacy. <p>General Manager</p> <ul style="list-style-type: none">• Reviews conditions and data provided and determines whether or not to activate the Plan.

2.2 TWIA Slab Claim Settlement: Pre-Storm Requirements

Objective 2.2	TWIA Slab Claim Settlement: Pre-Storm Requirements
Description	The sections prescribe guidelines TWIA must use to settle certain claims. The guidelines are based on the recommendations of a panel of experts, appointed under Insurance Code 2210.578 and charged with recommending methods or models for determining the extent to which a loss may be or was incurred as a result of wind, waves, tidal surges, or rising waters not caused by waves or surge.
Purpose	<ul style="list-style-type: none">• To ensure compliance with Texas statutory and regulatory requirements for TWIA to use to resolve slab claims• These guidelines apply only when TWIA expects at least 500 residential slab claims
Participants	Claims – VP Claims and a designated team of slab claim data analysts and slab claim desk examiners
Action Plans	<p>Pre-Landfall Requirements and Timing for TWIA Slab Claim Settlements</p> <ul style="list-style-type: none">• TWIA must make an initial determination as to the expected number of claims when the organized weather system is in the Gulf of Mexico or within the boundaries of longitude 80 degrees west and latitude 20 degrees north.• The association must make a final determination as to the expected number of claims no later than 24 hours before expected landfall.• Ensure the availability of pre-event, high-resolution, aerial and on-ground photographs of insured residential structures located in the National Flood Insurance Program Zones, V, VE, and V1-V30 to define building characteristics and terrain.• Take steps to ensure that as soon as possible after an applicable storm, the association can acquire and process high-resolution aerial photographs and light detection and ranging (LIDAR) measurements.• Ensure the deployment of mobile measurement platforms and fixed surface-level devices that:<ul style="list-style-type: none">○ Provide real-time wind speed and direction measurements during the applicable storm○ Can be used for both forecasting and producing post-event wind field hind casts• Deploy at least 40 to 60 mobile wind measurement platforms in two layers, with the first layer in close proximity to the coastline and the second layer approximately 20 miles inland. The mobile wind measurement platforms must be deployed as follows:<ul style="list-style-type: none">○ Three to five miles apart in the eyewall region of the storm○ Up to 10 miles apart in the outer regions of the storm○ With a wind speed and direction sampling frequency of 10 hertz or higher○ A temperature, barometric pressure, and relative humidity sampling frequency of 1 hertz or higher○ Deploy sufficient mobile wind measurement platforms along the coast in front of a land-falling storm to ensure that a high-resolution wind field with small errors—no

Response Phase (3.0)

Response represents the time period immediately after a catastrophic incident occurs and typically lasts up to 90 days post-incident. The response phase is characterized by heavy customer contact and high property inspection, payment, and claim closure activity, with the majority (90 percent or more) of all the incident claims reported, evaluated, processed, and closed during this time.

During this phase, it is important for the Enterprise to immediately recognize needs to increase capacity for serving our policyholders, including claims, vendor manager, mobile claims offices and remote facilities to serve impacted communities on the ground.

3.1 Ensure Compliance with Established Guidelines and Performance Standards

Objective 3.1	To ensure compliance with established Association guidelines and performance standards.
Description	Ensure ethical, timely, and efficient incident response.
Purpose	<ul style="list-style-type: none">To efficiently provide essential insurance products and services for policyholders.To comply with sound insurance principles.
Participants	Claims, Legal and Compliance, Underwriting
Action Plans	<p>Claims:</p> <ul style="list-style-type: none">Assesses stakeholder needs for loss reporting, securing advance payments, and guidance for temporary repairs/protection of property.Based on information from Actuary, Senior Claims Manager to request Claims Business Analyst change system indemnity and expense reserves in the applicable claims administration system.Communicates thresholds for including mortgagee on claim payments.Sends a reminder about best practices for administering thresholds, including how to distribute threshold information.Communicates manner in which ALE claims will be handled during catastrophe.Ensures examiners are placed in the appropriate groups in Claims Center.Monitors total loss procedures and advanced payments during an incident.Enforces claim handling timeframes, IA timelines, and payment timelines.Utilizes the services of experts (e.g., engineers and building consultants) to help mitigate disputed claims.Measures first notice of loss (FNOL) and call center metrics, adjuster and examiner cycle times payments, file closings, and reopen rates.Asses the need to adjust the Claims Center Activity Patterns to assist in proactive communication.Evaluates desk examiner claims handling using quality assurance criteria.Distributes regular incident summary reports, including claim volume, volume of escalated claims, projected new claim volume and expected total incurred.Deploys re-inspectors to monitor field adjuster performance.Sets in place a workflow to have examiners escalate any Underwriting issues to their direct supervisor/manager, who in-turn will inform the resources identified by the Underwriting Department. <p>Legal and Compliance</p> <ul style="list-style-type: none">Be available to answer questions.Engages outside counsel to assist depending on size of incident. <p>Underwriting</p> <ul style="list-style-type: none">Researches in real-time to support Claims handling process when claim is filed where no policy is identified.Immediately coordinates with Claims to determine the need for resource availability for

3.2 Slab Claim Settlement – Guidelines & Post-Storm Activities

Objective 3.2	TWIA Slab Claim Settlement – Guidelines & Post-Storm Required Activities
Description	The sections prescribe guidelines TWIA must use to settle certain claims. The guidelines are based on the recommendations of a panel of experts, appointed under Insurance Code 2210.578 and charged with recommending methods or models for determining the extent to which a loss may be or was incurred as a result of wind, waves, tidal surges, or rising waters not caused by waves or surge.
Purpose	<ul style="list-style-type: none"> To ensure compliance with Texas statutory and regulatory requirements for TWIA to use to resolve slab claims
Participants	VP Claims, slab claim data analysts, and slab claim team desk examiners
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> The adjuster must use the “Damage Estimation Detailed Report” provided based on the information input into the probabilistic model approach. The Damage Estimation Detailed Report provides the following key information the adjuster must use to understand the extent of damage to the structure including damage to each structural component. The Damage Estimation Detailed Report must be shared with the policyholder including each time the model approach is run and a new updated Damage Estimation Detailed Report is generated. The report includes the following important information: <ul style="list-style-type: none"> Basic information about the slab claim, including storm name, policy number, claim number, address, etc 24 “Property Characteristic” data elements input into the model approach for the structure, e.g. roof shape, roof covering, roof age, length and width of structure, etc Wind damage at the time of maximum surge Weighted damage at the time of maximum surge Hydro Time Histories Wind Time Histories Damage Time Histories Damage Time History Table Surviving Structure Water Line Use the Observational Model Approach, along with the Probabilistic Model Approach. In using the observational model approach, TWIA must consider the following: <ul style="list-style-type: none"> Modeled or observed surge and wave heights Peak wind speed Post-event high-resolution aerial photographs and light detection and ranging (LIDAR) measurements

- Observed damage to surviving structures
- The observational model approach is used to:
 - to inform the probabilistic model approach to obtain better damage predictions
 - validate the probabilistic model approach; and/or
 - provide an additional methodology to estimate the damage to the structure components that can be used in the adjusting process

Surviving Structure Inspections

- Desk-top or Virtual Inspections
 - Aerial, satellite, drone, and other photographic images of structure exterior
 - Photographs and measurements of structure interior including attic and crawl spaces where safe
 - Field adjuster and expert reports for surviving surrounding structures
 - LIDAR
 - Professional surveyor water line marks and heights
 - FEMA NFIP claim information
 - Non-FEMA flood carrier information
 - Policyholder provided information
- On-scene Inspections
 - Obtain photographs of exterior, interior, and contents of surviving structures where possible
 - Obtain photographs and measurements of water line levels if found
 - LIDAR measurements

Obtaining and Using Policyholder Provided Information

- Determine if the information from the property characteristic data and hazard modules used to create the Damage Estimation Detailed Reports is as accurate as possible.
- Ensure the policyholder understands they have the opportunity to obtain, review, challenge, and see corrected, the information TWIA has obtained before and after the storm and used to support their claims decisions.
- Provide the policyholder with the information they have obtained before or after the storm TWIA used as input into the Probabilistic Model Approach for purposes of creating the Damage Estimation Detailed Reports.
- A letter must be sent to the policyholder not later than 30 days after the policyholder files a residential slab claim, that accomplishes the following:
 - Notifies the policyholder that the association will use the wind damage evaluation method
 - Requests the policyholder sends TWIA any information they have for:
 - Wind speed and direction, and surge and waves, at the site of the structure for the duration of the applicable storm
 - Damage to the structure during the applicable storm
 - New information on the characteristics of the structure
 - Includes a copy of the current data in the property database on the structure's characteristics

Where the policyholder provides new or additional information that is different from the

information TWIA has and used to create the Damage Estimation Detailed Report, the slab claim team examiner must determine if the information is correct and usable in its current format.

If the information submitted by the policyholder is correct and in the proper format, the slab claim team examiner must submit the new information to a slab claim data analyst to input into the slab claim model run portal. The slab claim data analyst must then run an updated Damage Estimation Detailed Report is run based on the information submitted by the policyholder.

Once the updated Damage Estimation Detailed Report is available, the slab claim team examiner must review the new report and determine if any changes in the information in the report would result in a different and improved claim result for the policyholder.

Adjusting residential slab claims

TWIA must adjust residential slab claims using the damage estimates obtained from the Damage Estimation Module.

TWIA must use the wind damage estimates obtained in the Damage Estimation Module to determine the scope of work and associated costs for each component that was likely damaged by wind. The necessary information from the Damage Estimation Module to support the adjustment of exterior and interior damage to a residential structure is provided in the Damage Estimation Detailed Report.

The damage estimation module does not generate estimates on damage to contents; TWIA must determine the amount to pay for contents by taking into consideration:

- The adjuster's knowledge and experience
- Information about the structure from the property characteristics database, the policyholder, and other sources, including applicable information from the damage estimation module

Required Initial Notice Letters

- A letter must be sent to the policyholder not later than 30 days after the policyholder files a residential slab claim, that accomplishes the following:
- Notifies the policyholder that the association will use the wind damage evaluation method
- Requests the policyholder sends TWIA any information they have for:
 - Wind speed and direction, and surge and waves, at the site of the structure for the duration of the applicable storm
 - Damage to the structure during the applicable storm
 - New information on the characteristics of the structure
- Includes a copy of the current data in the property database on the structure's characteristics.

Claim Disposition Letters

- When a claim disposition letter is sent, the letter must include the following:
 - A complete residential slab claim report and a summary of the results of the wind damage evaluation
 - A complete residential slab claim report must include the following:
 - The percentage of damage to each component of the structure, as

3.3 Implement a Risk-Based QA Approach

Objective 3.3	Ensure compliance with Association guidelines and statutory requirements using a risk-based approach.
Description	In addition to monitoring the compliance of all claims and ensure compliance with a focus on the claims which pose the highest risk to policyholders, external stakeholders, and the association.
Purpose	<ul style="list-style-type: none"> • Ensure the claims which pose the highest risk to policyholders, external stakeholders, and the associations are being handled to the highest standards possible • Be able to report on and attest to the quality of handling on those claims
Participants	Claims, Legal and Compliance, Communications & Legislative Affairs
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> • Identify claims with the highest risk to policyholders, external stakeholders, and the Associations. • Enact Quality Assurance plans to audit, review, and ensure compliance on those claims. • Provide regular reporting during events on the status of those claims. • Identify opportunities for additional instruction/clarification to improve handling. • Assist C&LA in identify opportunities for outreach to policyholders and external stakeholders. <p>Legal & Compliance</p> <ul style="list-style-type: none"> • Works with Quality Assurance to carefully audit, review, and ensure compliance. • Serve as subject matter experts on coverage topics. • Assist with training as needed. <p>Strategic Communications</p> <ul style="list-style-type: none"> • Coordinate and execute messaging and other outreach to help policyholders with these complex, high-risk claims.
Exhibits, or Related Documents	
Additional Information	<ul style="list-style-type: none"> • Quality Assurance plans are internal documents, regularly reviewed and updated
Compliance	Recommendation 3.5 of the 2018 Sunset Advisory Commission's report.
QA or Testing	Two QA teams; one to focus on desk examiner and supervisory performance and one to focus on IA/expert selection process, communication with stakeholders, estimates, etc. for thoroughness and quality.

3.4 Administrative Complaint-Handling Process

Objective 3.4	To administer the complaint-handling process.
Description	Coordinate processing general written complaints, appeal complaints, and legislative complaints. Ensure appropriate complaint response, consistent with statutory requirements and aligned with our commitment to providing quality customer service.
Purpose	To ensure complaints are properly addressed to avoid further escalation and to prevent future complaints where possible.
Participants	Claims, Legal and Compliance
Action Plans	<p>Claims</p> <ul style="list-style-type: none">• Ensures that staff understand how to identify a complaint and know that complaints should be forwarded to the Compliance team for appropriate logging and handling.• Communicates information from escalated complaint calls to impacted personnel.• Administers surveys to gauge whether claim handling is satisfactory to customers.• Communicates with principals of approved vendors and the Legal and Compliance Department on issues of ethics, conflicts of interest or fraud.• Uses complaint information for continuous improvement to reduce complaints.• Arranges meetings with staff to reinforce customer service objectives and telephone etiquette as trends emerge from complaint data.• Works with C&LA through a KACE queue to identify and address inquiries from external stakeholders. <p>Legal & Compliance</p> <ul style="list-style-type: none">• Meets with internal stakeholders to review complaints and disputed claim data.• Estimates complaint volume based on exposure and determines whether additional resources are required to assist with responding to increased volume of complaints.• Ensures all complaints are logged accurately and that responses appropriately address the issues presented.• Ensures response deadlines are met. <p>Legislative & External Affairs</p> <ul style="list-style-type: none">• Assists as needed in the complaint handling process, especially related to legislative complaints.• Identifies a resource to assist with the KACE queue process for inquiries.

3.5 Communicate Roles and Responsibilities of Claims Support and Customer Care

Objective 3.5	To communicate roles and responsibilities of Claims support staff and customer care.
Description	Perform tasks to support the claim lifecycle. Assume responsibilities beyond normal staff roles in the case of an incident.
Purpose	To efficiently provide essential insurance products and services for policyholders.
Participants	Claims
Action Plans	<p>Claims Support Staff oversees parts of the Claim lifecycle, including but not limited to:</p> <ul style="list-style-type: none">• Inputting claim information from main TWIA/TFPA email boxes into the system.• Maintaining records data on vendor services and invoices, and paying invoices.• Researching coverage and contacting insured or agent in the case of no coverage.• Voiding checks and issuing stop pays for claim files.• Managing the CGI fax queue. <p>Claims Support Staff and /or Customer Care Staff may assume the following during a CAT:</p> <ul style="list-style-type: none">• Completing contacts, such as: acknowledging receipt of claim, providing insured a claim number, obtaining a description of damage, advising insured of next steps, providing claim status and field adjuster information, advising on reporting concerns.• Assisting in assigning claims.• Handling urgent calls and transfers policyholders to claims examiner when needed.• Escalating serious claims (e.g., uninhabitable property or business interruption).• Coordinating with field adjusters on priority inspections.• Assisting with payment processing for emergency ALE payments, indemnity payments, and vendor invoices, if given proper authorities.• Processing incoming/outgoing mail and paper FNOL documents.
Exhibits, or Related Documents	
Additional Information	Based on incident size, multiple claims support and/or customer care units may be utilized.
Compliance	
QA or Testing	

3.6 Manage IT Support

Objective 3.6	To manage ongoing IT support after landfall of a catastrophic incident.
Description	Determine whether to suspend regular IT operations to provide support for Claims' extended hours of operation.
Purpose	To uphold the Associations' commitment to deliver prompt and fair claims service.
Participants	IT, Claims
Action Plans	<p>IT</p> <ul style="list-style-type: none"> • Provides support for Agility unit and Agility Recovery's Readysuite site. • Provides support in Austin for extended hours of operations. • Assists with computer issues, setting up new PCs as needed, and internet support. • Developers provide support for all TWIA applications such as Claims Center, Call Center Portal, Policy Explorer, and Claims Center for Policyholder and Agents. • Evaluates impact for changes to nightly maintenance runs vs. Claims' extended hours and evaluates if iteration deployment plan can be deferred or frozen. • Communicates with business units to evaluate iteration risks and deployment plan. • Monitors systems with Orion (monitoring tool) on an ongoing basis. <p>Claims</p> <ul style="list-style-type: none"> • Ensure Sr. Claims Manager(s) provide IT Ops management with information regarding overtime and weekend work plans each week.
Exhibits, or Related Documents	
Additional Information	<ul style="list-style-type: none"> • IT generally works in production enhancements and fixes which are developed, tested, and deployed every two weeks. These will be reconsidered during a CAT to allow for IT to scale up support functions. • IT personnel should be available 24 hours a day including weekends to provide support for CAT operations.

Recovery Phase (4.0)

According to Texas Division of Emergency Management, recovery is defined as “long-term activities that help return life to normal for individuals, businesses, and infrastructure.” In the recovery phase, the vast majority of claims are closed and Association operations are being scaled back to normal.

During this phase, the corrective action program is fully implemented and activated, including review of all after action reports to determine the level of Plan updates and need for future testing, training, and exercises.

5/31/15	General Manager, Executive Leadership Team, and Enterprise Subject Matter Experts	Rewrite of TWIA and TFPA Catastrophe Plan
5/25/16	CAT Plan Update Team, David Williams, Vice President	Inclusion of After Action Report Items
11/28/16	Christine Reschke, David Lawson, and Erin Espinoza	Revisions to Objectives 2.6 and 4.1 to ensure proper assignment of responsibilities relating to Storm Mode
12/13/16	David Lawson, Jim Murphy	Reassignment of responsibilities in Objective 3.12
05/01/17	CAT Plan Update Team	Inclusion of After Action Report items and adjusted funding structure information
08/22/17	David Lawson, Erin Espinoza	Changed hurricane binding exception language to align with Plan of Operations and fixed hyperlinks in the table of contents
5/30/18	CAT Plan Update Team	Addition of After Action Reports from Hurricane Harvey.
5/28/19	CAT Plan Update Team	Updates from After Action Reports, removal of funding structure exhibits, updates to auxiliary documents, and workflow/process document updates.
7/31/19	David Lawson	Inclusion of new Claims action item in Objective 2.6
5/27/20	CAT Plan Update Team	Addition of After Action Reports from the past year.
5/26/21	CAT Plan Update Team	Addition of After-Action Reports from the past year.
5/25/22	CAT Plan Update Team	Addition of After-Action Reports from the past year and full review of Deployment Plan.
5/27/23	CAT Plan Update Team	Addition of After-Action Report form the past year
5/29/24	CAT Plan Update Team	Addition of After-Action Reports from the past year and updated modeled storm event numbers and models

Appendix B - CAT Summary Checklist for TWIA and TFPA Staff

Before Hurricane Season:

- ☐ Participate in development and testing of the CAT Plan
- ☐ Participate in development and testing of the Disaster Recovery/Business Continuity (DR/BC), the plan for when a disaster affects the Austin office.
- ☐ Participate in all TWIA/TFPA mandatory trainings
- ☐ Learn how to take first notice of loss (FNOL) information from policyholders in the case of a misdirected call
- ☐ Update emergency contact information and all languages spoken in the ADP system
- ☐ Create a plan for your household in the case of CAT deployment and/or mandatory overtime
- ☐ Identify where to check for information on office closings, and regularly access for information.

While Monitoring a Pending Storm:

- ☐ Remain on alert for one-call messaging notifying of activation of the CAT Plan
- ☐ Remain on alert for mandatory overtime based on Association needs
- ☐ Activate plans at home for deployment and/or overtime
 - ☐ Attend preliminary Department meeting for briefing on CAT Plan duties and roles
 - ☐ Attend Department strategic planning meeting 96 hours before landfall
- ☐ Remain on alert for the activation of “storm mode” in the policy system, and pay attention to emails from IT indicating updates to systems technology
- ☐ Refer all media requests to Communications
- ☐ Prepare for role transitions (i.e., taking on a temporary position specific to the CAT)
- ☐ If chosen to deploy, prepare to travel to the impacted area or a nearby staging area when it safe to do so.
- ☐ In the case of DR/BC activation, remain alert for department-level instructions for recovery.

After Landfall of a Storm:

- ☐ Follow statutory timelines for claims and complaints
- ☐ Assist contract resources in complying with Association policies
- ☐ Report the following kinds of fraud when you see them: vendor fraud, policyholder fraud, internal fraud, and independent resource fraud
- ☐ For all misdirected calls, help the policyholder as much as possible, including taking FNOL information
- ☐ Participate in ongoing CAT meetings and briefings
- ☐ Continue referring all media requests to Communications
- ☐ If deployed, uphold TWIA and TFPA policies and procedures for professional behavior

Post-Event Phase:

- ☐ If deployed or at an offsite facility, assist with dismantling and cleaning the site
- ☐ Return equipment and supplies distributed to you for CAT response
- ☐ Remain on alert for the de-activation of “storm mode” in the policy system, and pay attention to emails from IT indicating updates to systems technology
- ☐ Prepare for role transitions (i.e., transitioning out of your temporary CAT role)
- ☐ Participate in Department Enterprise evaluations of CAT response
- ☐ Participate in conducting reviews of contractors and service providers

Introduction

Overview

The 2024 Deployment Plan and Volunteer Handbook is intended to outline a strategy to identify staff and recruit volunteers in the event that the Association deploys in response to an incident, to identify the roles and responsibilities of individual business units in the event of a deployment, and to provide deployment guidelines and preparation information for volunteers.

A deployment of TWIA and TFPA's resources in response to an incident is an important piece of the Associations' catastrophe operations, providing immediate assistance to our policyholders throughout our coverage areas. Our deployed staff will be the face of the Associations in our response to a disaster and are a way we are able to provide quality service to our policyholders in extreme circumstances.

As well as providing Association operating procedures for deployment, this handbook provides expectations, guidelines, roles and responsibilities, and tips on preparing volunteer's family for a disaster and making contingency plans when deployed. Preparation for the unique demands of deployment is necessary to mitigate staffing issues and to ensure employees are truly able to meet the goals we set when responding to a catastrophe.

Pre-Season Activities (1.0)

Pre-season activities involved the yearly planning and actions that need to be addressed prior to any actual deployment, as well as addressing those actions that will need to take place in closer proximity to an event. This includes enlisting volunteers, training and testing, setting expectations for deployment communication, and preparing policies and procedures.

1.1 Maintain a Deployment Plan

Objective 1.1	To maintain a plan that prepares for deployment in response to an incident
Description	Ensure a detailed plan is in place. Update and make improvements to the plan after a deployment or a test.
Purpose	To plan for deploying employees to impacted coverage areas in the case of a catastrophic incident.
Participants	General Manager, Executive Leadership Team, CAT Plan Update Team, All Departments
Action Plans	<p>CAT Plan Update Team</p> <ul style="list-style-type: none"> Reviews After Action Reports (AARs) and works with Executive Leadership Team to identify areas for improvement. Creates recommendations to the executive sponsor regarding possible testing, training and exercises to ensure continuous improvement. Meets with TWIA/TFPA Department Subject Matter Experts (SMEs) to review updates. Submits the plan to the Executive Leadership Team for approval no later than June 1st of each year. <p>All Departments</p> <ul style="list-style-type: none"> Review plan to identify and assess ownership of roles and responsibilities Assist with updating the plan, including sending updates to the CAT Plan Update Team Assist with training Department staff on plan requirements. Assist with implementing testing, including Department tests of relevant objectives. <p>HR</p> <ul style="list-style-type: none"> Review Mobile Claims Center layouts to ensure compliance with the Americans with Disabilities Act as it relates to TWIA & TFPA staff. <p>Legal & Compliance</p> <p>General Manager and Executive Leadership Team</p> <ul style="list-style-type: none"> Review and give plan approval. <p>Legislative & External Affairs</p> <ul style="list-style-type: none"> Attaches Deployment Plan to the Annual Report Card and sends to external stakeholders.
Exhibits	
Additional Information	

1.2 Prepare Deployment Staff for Assignment

Objective 1.2	To maintain a staffing model that accounts for the skills and experience needed to successfully deploy in response to a catastrophic incident.
Description	The Associations will have deployment volunteers who are available to serve policyholders in a variety of deployment scenarios, as well as discern the appropriate staff to deploy in extreme circumstances.
Purpose	To identify available volunteer resources for deployments and select appropriate staff.
Participants	General Manager, All Departments
Action Plans	<p>CAT Plan Update Team</p> <ul style="list-style-type: none"> • Sends requirements and responsibilities for deployed employees to Departments with attention to skills in customer service. • Identifies employees who have prior deployment or disaster response experience. • Identifies employees who are fluent in more than one language, including Spanish. • Identifies employees who are first responders and are trained in first aid and trauma. • Sends reminders for updating ADP (languages spoken, address, and emergency info). • Identifies backups for deployment volunteers, who would deploy in the case that the primary volunteer is unavailable or when there is more than one deployment location. <p>All Departments</p> <ul style="list-style-type: none"> • Review requirements and responsibilities for deployed employees and any staffing recommendations from CAT Plan Update Team. • Communicate with staff about requirements and responsibilities of deployment, including the ability to be away from home, living and working in adverse conditions for two weeks or more. • Make sure ADP contact info is up-to-date with staff . <p>Claims</p> <ul style="list-style-type: none"> • Ensure field staff have CAT Deployment equipment for a deployment (car magnets, lanyards, shirts, hats, etc.)
Exhibits	
Additional Information	

1.3 Train in Customer Service & Conduct during Catastrophic Incidents

Objective 1.3	To train staff in customer service skills and codes of conduct when working at a deployment site.
Description	Assure standards of customer service and professional behavior are in place and that deployment volunteers are familiar with them.
Purpose	To provide policyholders with a safe, professional experience, and to uphold the Association's ethics and best business practices when out in the field.
Participants	General Manager, All Departments
Action Plans	<p>CAT Plan Update Team</p> <ul style="list-style-type: none"> • Benchmarks against industry deployment plans and their codes of conduct and customer service standards and include those into the Deployment Volunteer's Agreement • Meets with departments to adapt policies they own to the Plan. • Recommends training to ensure staff are prepared to exhibit behaviors and practices appropriate for deployment. • Makes staff aware of overtime and volunteer and/or mandatory CAT deployment. • Ensures that the latest Deployment and CAT Pay Policy are available and reviewed by deployment volunteers. • Provide training to Association resources on an annual basis. <p>All Departments</p> <ul style="list-style-type: none"> • Makes recommendations of any changes needed. <p>General Manager and Executive Leadership Team</p> <ul style="list-style-type: none"> • Review and give policies approval during the review of the deployment plan. <p>All Departments</p> <ul style="list-style-type: none"> • Attend training in deployment customer service and codes of conduct.
Exhibits	
Additional Information	

1.4 Maintain Vendor Relationships to Quickly Enlist Services

Objective 1.4	To maintain vendor relationships to quickly enlist services for a deployment event.
Description	Assure the Association has contacts with vendors that can provide manual labor, security, and other services in the event of an incident
Purpose	<ul style="list-style-type: none"> To efficiently deploy to remote sites in order to provide the quickest and most effective service to policyholders.
Participants	General Manager, All Departments
Action Plans	<p>Facilities</p> <ul style="list-style-type: none"> Ensure contracts with security firms to provide 24/7 security for the deployment sites. Maintains relationships with rental car vendors. Maintains relationships with hotels/motels and other lodging options as primary or secondary options for housing Maintains relationship with vendors to provide shirts, hats, etc. <p>Claims</p> <ul style="list-style-type: none"> Maintains relationships with hotels and motels and other lodging options as primary or secondary options for housing. Explores options for basecamp sites and other housing, meals, and meeting space options that could serve as a primary alternate to hotels and motels for deployed staff. Maintain contract with Agility for MCC units and access to Prepara. <p>HR</p> <ul style="list-style-type: none"> Maintains contracts with vendors to provide manual labor and greeters at the deployment site.
Exhibits	
Additional Information	TWIA understands that vendors relationships should account for the fact that vendors located on the coast and in close proximity to the coast may not be available if evacuations occur.

Pre-Event Activities (2.0)

Pre-event activities include the activities needed once a known storm or other incident is approaching and the Associations have determined that deployment may be needed. These activities include alerting volunteers of a possible deployment, initiating work with vendors to procure supplies and resources, and setting up plans to be ready for the day of deployment.

2.1 Communicate with Deployment Volunteers & External Stakeholders about Deployment Sites

Objective 2.1	To ensure constant and clear communication with deployment resources and external stakeholders
Description	Once the CAT Plan has been activated and an incident is imminent, deployment communications will need to cascade effectively to internal and external stakeholders
Purpose	To efficiently deploy to remote sites in order to provide the quickest and most effective service to policyholders.
Participants	General Manager, Executive Leadership Team, Communications & Legislative Affairs, Claims, Operations
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> • VP of Claims to advise the Executive Leadership Team and the General Manager regarding the location of the deployment sites and the resources needed. • Coordinates with local, county, state, and federal emergency management personnel to communicate the location of the deployment site. • Work with FEMA and local officials to identify Disaster Recovery Centers (DRC) locations and work to place resources within the center, if possible. <p>Strategic Communications Communicates the location of deployment sites to external stakeholders via the TWIA website, social media, and other channels.</p> <p>External Affairs</p> <ul style="list-style-type: none"> • Sends information about deployment sites to the TWIA Ombudsman, legislative offices, media, and other interested parties.
Exhibits	
Additional Information	It is important to note that in a non-storm catastrophe, there may be no watch phase, volunteer standby phase, or 24-hour activation alert.

2.2 Initiate Services with Approved Vendors for Logistics

Objective 2.2	To engage approved vendors to acquire transportation, lodging, meals and other on-site supplies needed.
Description	Assure the Association has resources for transportation, lodging, and meals during a deployment event.
Purpose	<ul style="list-style-type: none"> To efficiently deploy to remote sites in order to provide the quickest and most effective service to policyholders.
Participants	Operations, Accounting, HR
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> Determine what deployment solutions are needed including lodging, meals, etc. Once decision on basecamp provided by ELT, the Sr. Business Continuity & Catastrophe Plan Analyst will contact RK EMS to activate the resources required for the deployed. <p>Facilities</p> <ul style="list-style-type: none"> Contacts car rental vendors to obtain enough vehicles for the deployment. Identify one single point of contact for deployment vendors in the field Ensures deployment sites are equipped with water and ice for policyholders Works with accounting to ensure all purchasing policies are adhered to <p>Legal & Compliance</p> <ul style="list-style-type: none"> Ensures the Association maintains insurance for drivers. <p>HR</p> <ul style="list-style-type: none"> Maintains contract with contract labor vendor to help set up the deployment site. Works with legal to determine guidelines for vehicle use.
Exhibits	
Additional Information	The Associations' Purchasing Policy applies unless instructed otherwise by the General Manager.
Compliance	

2.3 Determine Operational Funding Mechanisms

Objective 2.3	Enable resources and mechanisms to maintain the deployment site and the needs of deployment volunteers
Description	The daily operations of a deployment site may require bulk purchases, providing meals to volunteers, diesel fuel for the generator(s), and alternative funds in the event that normal purchasing mechanisms are affected. The Association needs to ensure deployment policies and procedures allow for proper controls, while providing flexibility to fund a variety of deployment scenarios.
Purpose	<ul style="list-style-type: none">To efficiently deploy to remote sites in order to provide the quickest and most effective service to policyholders.
Participants	Claims, Incident Commander, Executive Leadership Team (ELT), Accounting, Operations
Action Plans	<p>Claims</p> <ul style="list-style-type: none">Provides recommended size and scope of deployment to Operations and Accounting, as well as location of the deployment, in relation to the need to utilize advanced payments.Identify which of the scenarios are needed: a small deployment with the Mobile Claims Center, a large scale deployment in response to large events, multiple deployment sites in different areas.Determines any other constraints related to deployment that may impact the need for funds, i.e., areas without internet access where credit cards cannot be used.Identify number of staff that are anticipated for the deployment. <p>Catastrophe Claims Manager</p> <ul style="list-style-type: none">Communicates any need for deployment volunteers to submit expense reimbursement forms to obtain advances, if appropriate.Gathers expense reimbursement forms from deployment volunteers and submits to Accounting for advances, if needed. <p>Executive Leadership Team</p> <ul style="list-style-type: none">Makes a determination as to the lodging options based on the projections and recommendations from Claims.Determines if any deployed staff will need to be issued Credit Cards and follows the process laid out in the Purchasing and Contract Management Policy. <p>Facilities</p> <ul style="list-style-type: none">Coordinate with Claims Manager to identify the items needed for the deployment site(s) and works with Accounting to determine the best method of purchasing. <p>Accounting</p> <ul style="list-style-type: none">Will review the needs of the deployment site(s) provided by Operations and will determine how best to purchase items for the site(s)The CFO will make any final determination as to the mechanisms used to purchase items

2.4 Initiate Technological Systems for Deployment

Objective 2.3	To communicate with IT and vendors to deploy remote communications technology
Description	Communicate with TWIA/TFPA IT Department and Agility to deploy remote satellites and other needed technology to the location of the Mobile Claims Center(s).
Purpose	To efficiently deploy to remote sites in order to provide the quickest and most effective service to policyholders. Ensure remote connectivity is available at remote sites.
Participants	Claims, IT, Executive Leadership Team
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> Provides information and recommendations to the Executive Leadership Team to guide decisions regarding the level of deployment. Maintain contract with Agility, or other vendors, for remote satellite communication technology that is deployable with the Mobile Claims Center. Communicates with IT regarding the scale of deployment to ensure enough equipment is deployed. <p>Executive Leadership Team</p> <ul style="list-style-type: none"> Determines the level of deployment and whether to deploy Mobile Claims Center(s) or Agility unit(s), based on recommendations from Claims. <p>IT</p> <ul style="list-style-type: none"> Communicates with Agility to ensure the availability of required technology. Ensures the appropriate amount of equipment is deployed (i.e., laptops, printers, etc.). Begins prepping laptops at the 24-hour Activation alert. Ensure that each laptop is imaged with all of the most recent software downloads. Provides support throughout the deployment Coordinating with Facilities for space on our rental truck for IT equipment (i.e., laptops, printers, hotspots, tablets, etc.).
Exhibits	See Appendix B for the layout of the Mobile Claims Center
Additional Information	

Day of Deployment Activities (3.0)

Activities on the day of deployment play a crucial role in the overall implementation of the deployment plan. This section refers to the activities surrounding the deployment volunteers assembling before leaving for the remote site. They will be debriefed as to the specifics of the deployment situation, receive necessary resources, supplies, communications, and training. Any needed legal notices or agreements should be executed on this day if they have not been already. The day of deployment will also include safe transportation to the field office or mobile claims center, as well as coordinating the logistics for setting up the mobile claims center.

3.1 Coordinate Staff for Rapid and Safe Deployment to Impacted Areas

Objective 3.1	To coordinate deployment volunteers and staff to ensure an organized deployment
Description	The Association needs to be able to gather all deployment volunteers and organize contractors for a rapid and organized deployment to the impacted area.
Purpose	<ul style="list-style-type: none"> To efficiently deploy to remote sites in order to provide the quickest and most effective service to policyholders.
Participants	Operations, Claims, HR, Deployment Volunteers and Facilities
Action Plans	<p>Facilities</p> <ul style="list-style-type: none"> Distribute I.D. badges for deployment staff and volunteers. Distribute shirts, lanyards, hats, vest, office supplies, etc. Determines if contract labor is required for the set up and engages vendors to request resources. <p>Strategic Communications</p> <ul style="list-style-type: none"> Announces activation (issued after a hurricane or tropical storm has made landfall and will include logistical details surrounding the deployment) Of our MCCs and updating the websites and socials with info on where the MCC will be set up, times, etc. Legislative and External Affairs Prepares additional collateral and instructions for how to deal with media inquiries or legislative inquiries while in the field. Provide updates to media and legislative contacts regarding the MCC, etc. <p>Claims</p> <ul style="list-style-type: none"> Coordinates and communicates with Facilities regarding the level of deployment. Communicates with the adjusting resources and other relevant vendors to inform them of the deployment location. Coordinates with local, county, state, and federal officials as needed. Works with the Texas State Disaster Coalition to understand other remote claims operations in the area. <p>HR</p> <ul style="list-style-type: none"> Communicates with labor firms to make sure manual labor contractors can get to the deployment site easily. Provide I.D. badges to deployment firms for contract labor.
Exhibits	
Additional Information	

3.2 Coordinate Equipment for Rapid and Safe Deployment to Impacted Areas

Objective 3.2	To gather all of the necessary equipment for a deployment
Description	Some of the equipment for deployment is kept in a storage unit. It is important to ensure all of the needed equipment is deployed.
Purpose	<ul style="list-style-type: none"> To efficiently deploy to remote sites in order to provide the quickest and most effective service to policyholders.
Participants	Claims, Operations
Action Plans	<p>Claims</p> <ul style="list-style-type: none"> Communicates the specific supplies and equipment needed at MCC and the number of resources that will be deployed to Facilities Check point for appointments and the content and workflows that need to be put in play with that decision (I.e., phone appointments, etc.). <p>Facilities</p> <ul style="list-style-type: none"> Designates employee(s) to gain access to the storage facility to pick up equipment (i.e., generators, tents, tables, etc...). Ensures sanitation stations and restroom facilities have all appropriate amenities. Obtains a rental truck to haul supplies and equipment to the deployment site. Works with Claims and other departments to understand the amount of supplies needed. Works with IT to coordinate the delivery of IT equipment to the MCC.
Exhibits	
Additional Information	Information regarding the storage unit, its inventory, and its location can be obtained through the Operations/Facilities Department.

Deployment Phase (4.0)

Ongoing deployment activities are needed to maintain a safe, appropriate, and effective work environment while at the deployment site. This includes ways to check that policies and procedures are being followed and that best practices for safety on site are maintained. There needs to be channels for communication with the Associations' main offices throughout deployment to ensure business operations are meeting Association standards and to mitigate any risks during deployment.

4.1 Enforce TWIA/TFPA Codes of Conduct/HR policies and Maintain Safety at the Site

Objective 4.1	To ensure compliance with all TWIA/TFPA policies, procedures, and codes of conduct and to maintain safety at the site
Description	While deployed, all TWIA/TFPA policies and procedures apply to staff members. The policies and codes of conduct shall be enforced by management and the HR representative.
Purpose	To ensure the safety and security of all TWIA/TFPA personnel while deployed.
Participants	HR, Operations, Claims Deployment Volunteers
Action Plans	<p>Human Resources</p> <ul style="list-style-type: none"> Provides materials to reinforce policies (i.e., OSHA Guidelines, Gun Policies Sign as per Law, etc.), including all TWIA and TFPA policies. Identifies medical facilities in the area and confirms that they are operational. Communicates emergency contacts (e.g., hospital, police, fire) to deployed staff. Provides information on evacuation procedures and stays apprised of local evacuation orders and communicates to staff if there is a need. Provide material surrounding safety practices. <p>Facilities</p> <ul style="list-style-type: none"> Maintains contracts with on-site security vendors that can provide 24/7 protection at the deployment site. There should be no less than 2 security officers on duty per site. Provides safety equipment for the deployment site (i.e., first aid kits, fire extinguishers, defibrillator) and communicates the location to all deployed staff. Ensures that all tripping hazards are identified with red tape and all appropriate areas are barricaded. Responsible for creating ID badges at the site. <p>Claims</p> <ul style="list-style-type: none"> Ensures the enforcement of all TWIA/TFPA policies and codes of conduct Send deployed contractor list to Facilities email address (facilities@kbox.twia.org) to create ID Badges.
Exhibits	TWIA/TFPA Employee Handbook TWIA/TFPA Safety Manual
Additional Information	All TWIA/TFPA policies, procedures, and codes of conduct apply to all staff in the event of an incident.

4.2 Ensure the MCC is Prepared to Open to Policyholders

Objective 4.2	To ensure the Mobile Claims Center site is prepared to begin allowing visitors
Description	Prior to the site being opened, IT and Operations will need to communicate the state of readiness of both the physical site and the readiness of the technology.
Purpose	To ensure the site is fully operational prior to opening
Participants	IT, Operations, Site Manager
Action Plans	<p>Operations</p> <ul style="list-style-type: none"> Identifies one resource on-site to communicate with RK EMS regarding any changes or additions to the MCC. Manages the contractors who are setting up the exterior site and ensures the site is set up according to the plans. <p>IT</p> <ul style="list-style-type: none"> Begins set-up of equipment once Claims has completed site. Works with Agility staff to ensure the proper set up of remote satellites. Ensures that all laptops, phones, and other equipment is working as expected. Once the connection and performance have been confirmed, IT will communicate this to the Site Manager. <p>Site Manager</p> <ul style="list-style-type: none"> Officially opens the site to visitors once IT, Claims and Facilities have confirmed the site is ready Inspects MCC site within 72 hours of site activation and makes RK EMS aware of any issues or defects in equipment. Once the site set-up has been deemed ready by the site manager, the site manager lead will communicate this with IT representatives.

Returning from Deployment (5.0)

An organized and well-timed departure is key to the operation. The return should include plans for transitioning employees back to the normal work environment, including clearly communicating relevant information to returning staff, collecting feedback from deployment volunteers, and supporting staff with wellness resources. Managers and staff who have remained at the Association main offices will also need information about returning staff and how to transition from roles and responsibilities that changed with deployment.

5.1 Close Offices and Communicate about Closures

Objective 5.1	To ensure the organized departure of deployment volunteers and the take-down of all deployment sites
Description	Assure the Association closes deployment sites in an organized fashion and ensure proper communication to external stakeholders and deployment volunteers
Purpose	To efficiently deploy to remote sites in order to provide the quickest and most effective service to policyholders.
Participants	General Manager, Executive Leadership Team, Communications & Legislative Affairs, Claims, Operations
Action Plans	<p>General Manager and Executive Leadership Team</p> <ul style="list-style-type: none"> Determine when to close the deployment site(s). <p>Strategic Communications and Legislative & External Affairs</p> <ul style="list-style-type: none"> Sends communications to external stakeholders about the closing of the deployment site and ensure we communicate with stakeholders no less than 14 days prior to closing. <p>Claims</p> <ul style="list-style-type: none"> Coordinates with FEMA and local officials to communicate closures of any Claim Centers and determine the need to place resources within a Disaster Recovery Center (DRC) <p>IT</p> <ul style="list-style-type: none"> Coordinate the return of equipment (hot spots, tablets, et.). <p>Facilities</p> <ul style="list-style-type: none"> Coordinate with Claims Management to identify needs in closing of the deployment site(s) Ensures the return of rental cars and other equipment Returns all equipment taken from the Austin storage unit
Exhibits

Deployment Staff Handbook (6.0)

This section of the Deployment Plan is to serve as a resource for volunteers who are deployed for TWIA or TFPA in response to an incident. Pre-planning for deployment is essential. This portion of the plan will provide you with tips on how to prepare yourself for a deployment. It will also provide information regarding deployment guidelines, volunteer roles and responsibilities, and other resources.

6.1 Deployment Preparation

Objective 6.1	Prepare deployment volunteers for dealing with policyholders after a catastrophic incident
Description	The stress associated with a catastrophe and rebuilding process for policyholders can be overwhelming. As a deployment volunteer, you are responsible for serving as their trusted guide throughout the process.
Purpose	<ul style="list-style-type: none"> To prepare volunteers and set expectations
Participants	Deployment Volunteers
Details	<p>Deployed Staff Expectations</p> <ul style="list-style-type: none"> Prepare for varied reactions - Understanding that policyholders may respond to trauma differently is key in providing appropriate customer service. The emotions you see on site may vary and being aware of how to address each situation is crucial. Establish trust by being an active listener – Avoid making assumptions, give your undivided attention, and be sure to ask follow-up questions. Acknowledge their situation. Avoid diminishing the policyholder’s experience by saying ‘it’s not that bad.’ Gather the facts – Who, what, when, why, what next. Don’t speculate – Communicate accurate information only. If you don’t know, say so and get back with the customer once you have an answer. Be the trusted guide, not the hero – Rather than over promising and setting false expectations, be their expert source of information to guide them through this process. Plan ahead – We encourage you to prepare yourself and your family before a catastrophe occurs. Have the materials you need to perform the duties you are responsible for carrying out.
Exhibits	
Additional Information	

6.2 Deployment Expectations

Objective 6.2	Learn and uphold expectations of deployed staff
Description	As an employee of the Associations, you have responsibilities to your supervisors, managers, and your fellow employees. Even in extreme circumstances, you are to uphold the mission, vision, and values of the Associations
Purpose	<ul style="list-style-type: none"> Identify actions that would be regarded as improper conduct
Participants	Deployment Volunteers
Details	<p>Deployment Staff should understand how to avoid the following improper actions:</p> <ul style="list-style-type: none"> Failure to meet the expectations for your responsibilities as a deployment staff member of TWIA & TFPA . Leaving your workstation or the deployment site without first receiving permission from your supervisor or manager <ul style="list-style-type: none"> Breaks throughout the day must comply with Texas Labor Law but timing may be at the discretion of the Site Supervisor Falsifying or withholding of facts on any company records, including applications, time sheets, etc. Excessive absenteeism or tardiness. Failure to follow policies, procedures, and guidelines contained in the employee handbook Failure to follow safety rules. Conduct during business hours which could be construed as negative. Contracting with stakeholders to perform work of any kind for them. Non-disclosure of interest in any vendor or stakeholder. Threatening, intimidating, coercing, or interfering with the work of others. Disorderly conduct. Any form of harassment or discrimination. Failure to report accidents immediately. Discourtesy towards policyholders, agents, or any stakeholders. Possession of firearms or explosives or other weapons on company premises, including parking areas. Employees will not show up to the worksite under the influence of drugs or alcohol, nor can employees bring any intoxicant onto company property.
Exhibits	
Additional Information	The Associations reserve the right to discipline, up to and including, termination of an employee regardless of whether or not the conduct or performance is described in the above list.

6.3 Reporting for Deployment

Objective 6.3	Report for deployment according to the plans and instructions of the Association
Description	Deployment Volunteers should be alert to the following phases and activities that will happen upon the activation of the CAT Plan, when there are plans to deploy:
Purpose	<ul style="list-style-type: none"> Assure the proper communication of the details of departure and the disbursement of supplies, and ensure an organized departure
Participants	Deployment Volunteers
Details	<p>Deployment Staging</p> <ul style="list-style-type: none"> Upon arrival to the meeting site, volunteers will be briefed in greater detail regarding the deployment (i.e., directions to the site, lodging information, and information on any road blocks). Facilities will supply TWIA/TFPA polos, vests, hats, and badges at this time. will be issued TWIA/TFPA car magnets and provided with any reentry letters needed. <p>Deployment Attire</p> <ul style="list-style-type: none"> Staff should prepare for all types of weather (heat, humidity, rain, etc.). Dress should reflect a professional appearance. Staff will be expected to wear casual Friday dress, their TWIA/TFPA branded shirt, vest, and I.D. badge.
Exhibits	
Additional Information	Volunteers should bring enough supplies (i.e., personal toiletries, shoes, socks) for a deployment of no more than 2 weeks

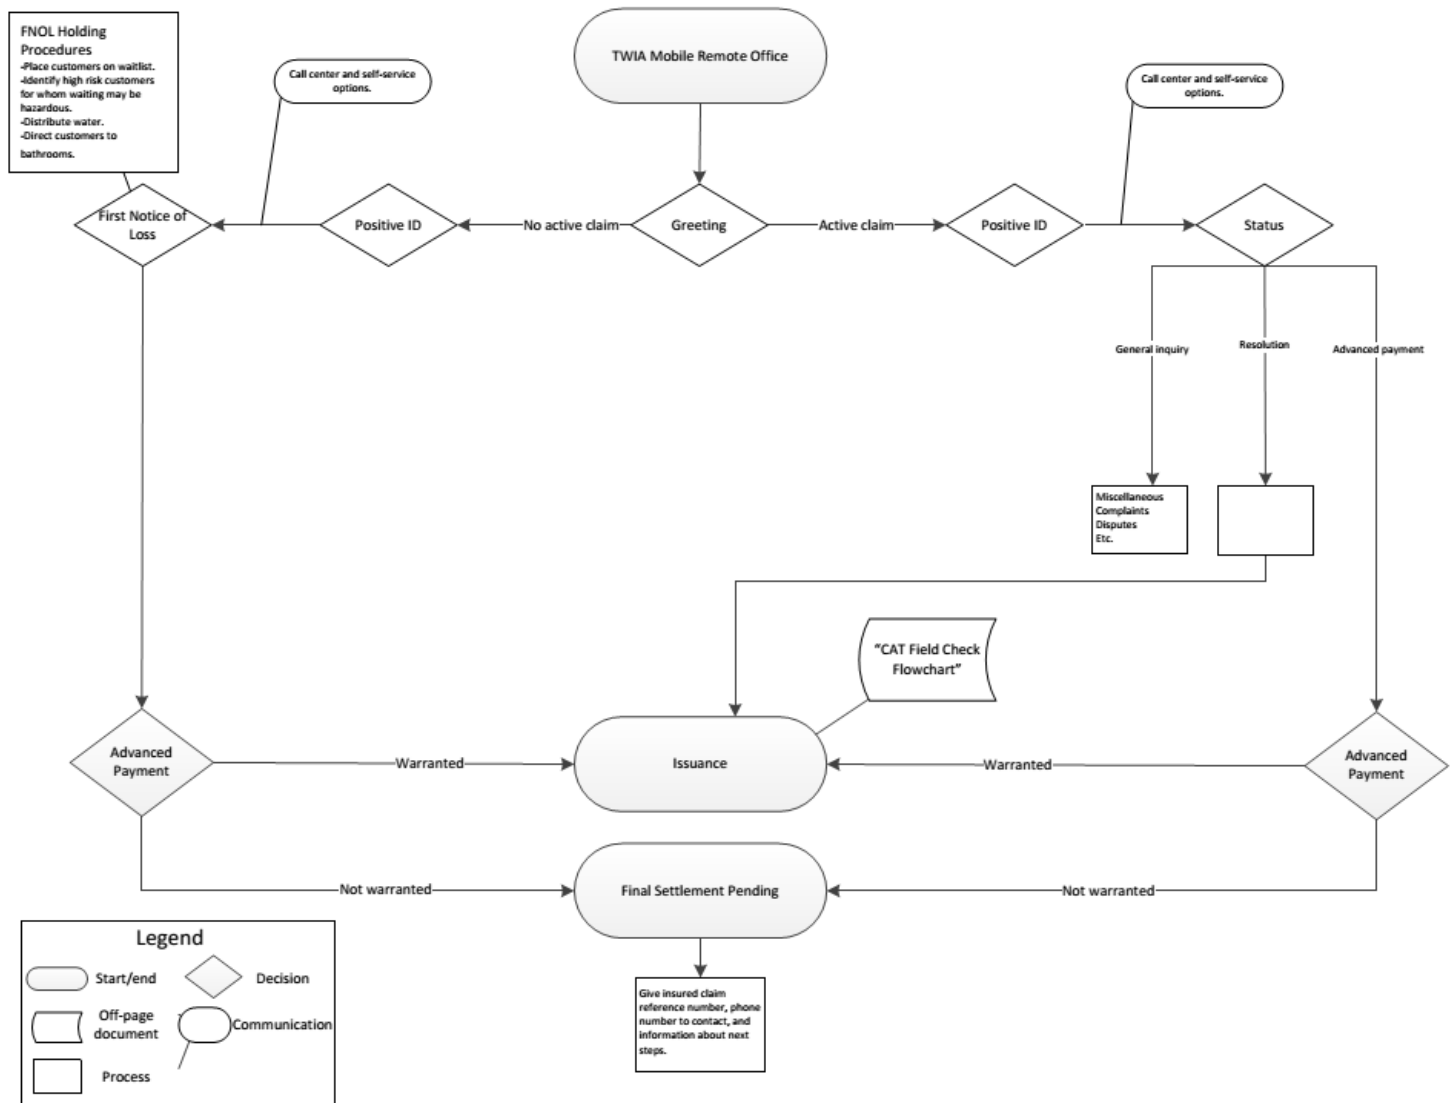

6.4 Transportation to the Deployment Site and Lodging

Objective 6.3	Be aware of transportation plans to the site, as well as lodging
Description	Deployment volunteers will be provided information regarding standards and expectations surrounding traveling to the site and lodging.
Purpose	<ul style="list-style-type: none"> • Ensure an organized departure
Participants	Deployment Volunteers
Details	<p>Deployment Transportation</p> <ul style="list-style-type: none"> • Utilize the KACE process for the rental cars, etc. <p>Deployment Lodging</p> <ul style="list-style-type: none"> • Where possible, lodging arrangements will be made by the Claims Department. Information regarding the location and check-in will be reviewed at the briefing that will occur prior to departure. • If not possible for the Associations to obtain enough lodging in the area, basecamps will be utilized. Basecamps utilize open space as a place to set up sleeping quarters for volunteers. • Room assignments will be made by the Site Manager prior to departure. There should be no more than four volunteers to a room and no less than three to a room. • Deployment Volunteers will be responsible for settling any outstanding incidental expenses not reimbursed by the Associations (i.e., room service, laundry service, etc.). • If it is determined that advances will be made for expenses, volunteers will need to submit their expenses to their manager on a weekly basis.

INSURANCE ASSOCIATION

MCC Support Unit to Rentsys

See Page 2 for Key

Appendix C – Deployment Position Expectations

Role Expectations – Mobile Site Supervisor(s)

The claims supervisor that is deployed is responsible for ensuring TWIA/TFPA's ability to provide service to its policyholders, including paying claims in a timely manner. The supervisor is also responsible for ensuring the availability of required infrastructure. The Claims Supervisor is also responsible for:

- Supervise the deployment site and the deployment volunteers
- Handle escalated or difficult situations
- Answer general questions
- Meets with claims staff to brief them on expectations, responsibilities, and any specific instructions
- Ensures claims staff are adhering to TWIA/TFPA claims guidelines and are meeting statutory requirements
- Works with staff to identify the need to issue advanced payments
- Review and approve all coverage decisions involving a denial or partial denial of coverage
- Issuing payments that exceed the authority of the Claims Examiners at the deployment site

Role Expectations – Mobile Site Representative

Reviews the reports generated by the field adjusters, make claims decisions, communicate decisions to the policyholders, and issue claim and expense payments.

- Review adjuster reports and bring claims to conclusion according to TWIA/TFPA guidelines
- Discuss the disposition of the claim with the policyholder and walk them through any next steps
- Serve as a resource for policyholders with questions about their coverage
- Ensure all denials and partial denials are approved by TWIA/TFPA management
- Advise policyholders on the need to mitigate damages to prevent further damage to their property
- Identify the need to issue advanced payments to policyholders
- Will be responsible for filling out the Advanced Payment Agreement with the policyholder if any advanced payments are needed and properly document them in Claims Center
- Advise and explain to policyholders the WPI-8 processes

Role Expectations – Accounting Deployment Specialist Lead

Responsible for maintaining the security of the signature stamp and signing each field check, utilizing the signature stamp, as well as ensure all field check registers are delivered to TWIA's home office.

- This resource will be responsible for checking out the signature stamp from the Accounting Department
- Along with the responsibilities mentioned above, this resource may be needed to assist with other duties at the deployment site
- Will ensure enough check stock for the deployment and will communicate with the home office if more checks are needed after the first week
- Responsible for compliance with all Accounting policies and procedures at the deployment site
- Will be responsible for checking out the field check register and will be responsible for the return of this register

Role Expectations – Accounting Specialist

Responsible for maintaining security of field checks and field registers, as well as writing all field checks and maintain a record of the checks written in the register.

- When coverage has been verified by Claims, this resource will be responsible for promptly writing the field check
- This resource may be asked to fulfill other duties at the deployment site if needed
- Responsible for ensuring accounting practices are adhered to, along with the policies and procedures
- Ensures that the Advanced Payment Agreement is filled out appropriately and signed prior to writing any checks

Role Expectations – Customer Greeters

Welcome customers, answer questions, assist with the filing out of the customer information sheet, and direct policyholders to the correct resources.

- Warmly welcome policyholders
- Must maintain a customer friendly disposition and show empathy with stakeholders affected by the incident
- Is responsible for understanding TWIA/TFPA's claims procedures in order to assist policyholders and answer questions about the process
- Must be able to answer basic questions about the claims processes and TWIA's overall policies and procedures

Role Expectation – Claims Services Representative

Review customer information sheet, assess policyholder's needs and discuss policy information, explain the steps of the claims process, and determine the need for advanced payments.

- Must determine the needs of the policyholder and guide them to the right resource to assist them
- Responsible for reviews of the Policyholder Information Sheet and verifying coverage
- Once coverage is verified, this person will determine the Policyholder's need for an advanced payment
- Will provide additional help to claims staff at the deployment site and fill in any other role, as needed

Role Expectations – Facilities Coordinator

This person(s) will be a non-Claims leader responsible for coordinating with Site Managers and Austin Facilities Coordinator to ensure all services and goods are being provided for as needed, along with following duties;

- Manage and schedule security services
- Manage and distribute office supplies
- Ensure a constant fuel supply to all site generators that require it
- Ensure a supply of snacks, ice and water at each location

Role Expectations – Catastrophe Manager

A Claims or non-Claims leader with overall responsibility for ensuring all activities are taking place in accordance with the Plan. Claims Supervisors on site may also be assigned to this role.

- Ultimately responsible for the set-up, operations, and take down of the deployment site
- Ensures compliance with claims handling processes and with all orders from local, county, state, and federal officials
- Will manage all deployment volunteers and staff at the deployment site
- Responsible for receiving and keeping track of all exempt and non-exempt timesheets and will submit these timesheet to HR every Monday by 9:00am
- Provides daily site operations reports to Sr. Claims Management for general performance of the site, number of site visitors, number of FNOL's entered, number of payments issued, and information as to why the site should continue to operate at that site.
- Ensure compliance with liability policies and ensure each site is equipped with hard copies.

Role Expectations – Underwriting Representative

This resource will service as the expert in policy processing and the Underwriting representative at the deployment site. When not directly involved in underwriting issues, this resource will assist with other roles where possible.

- Is responsible for all inquiries regarding Underwriting issues
- Must be proficient in using TWIA/TFPA policy systems
- Answer general questions
- Be available to assist with a variety of duties at the deployment site

Role Expectation – IT Representative

This person must be an expert in IT to provide support for the hardware, software, and network connectivity at the deployment site.

- Ensures the ability to access TWIA/TFPA's core system applications
- Works with the Austin office to troubleshoot issues if needed
- Make sure there is enough technology equipment for all of the resources

Role Expectation – Communications Representative

Strategic Communications and/or Legislative & External Affairs may be present to assist with onsite media, collect feedback from stakeholder groups, and coordinate outreach events (e.g., Townhall meetings).

- Handles all media requests at the deployment site
- Works with local agents and officials to make them aware of TWIA/TFPA's presence in the area
- Organizes Townhall and other public events to educate the public on TWIA/TFPA policies and issues specific to the incident
- Provides assistance at the deployment site, where needed
