Current year changes in estimates of the costs of prior year losses and loss adjustment expenses (LAE) affect the current year Statement of Income. Current year losses and LAE reflected on the Statement of Income was \$11,861 thousand. \$5,217 thousand of the current year losses and LAE was related to current accident year losses. Total prior year development was \$6,644 thousand with the majority of the adverse development related to Accident Year 2012 claims. Increases or decreases of this nature occur as the result of claim settlements and receipt and evaluation of additional information regarding unpaid claims. Recent development trends are also taken into account in evaluating the overall adequacy of reserves. The Association feels that the loss and LAE reserves as of March 31, 2013 make a reasonable provision for Texas Windstorm Insurance Association's claim liabilities.
